## G. O. P. CANDIDATE TO BE BORN IN SESSION THINKS C. D. HILLES

Chicago, Jan. 25.—Charles D. Hilles, chairman of the Republican national committee before leaving for New York today after attending the session of the subcommittee on arrangements for the party national convention in June discussed the possible candidacies of Colonel Roosevelt and Justice Hughes for the Republican nomination for president and urged the necessity for the adoption of uniform national primary election laws by all the states.

Speaking of Colonel Roosevelt, Chairman Hilles said: "All the information I have on the subject is to the effect that Col. Roosevelt is not a candidate for the Republican nomination for president. He has declined to permit his name to go on the primary ballot in the only three states where it has been suggested, Minnesota, Nebraska and Michigan. That indicates that he is not a candidate. In the statement issued by Chairman Perkins, and the progressive national committee it was made plain that any reasonably satisfactory man would be acceptable as the Republican nominee. They insisted that they meant just what they said, and we will take the statement at its face value. I think we will be able to nominate a man who will be satisfactory to all elements of the party and that our candidate will be elected."

In regard to Justice Hughes, no one knows what his attitude is regarding the presidency. In discussing the subject we find in Mr. Justice Hughes said when he went on the United States Supreme court bench he took the oath and renounced the world. I think he was in earnest when he made that statement but whether he has since changed his mind I do not know. There is no man big enough to refuse the presidency in my opinion. If he were nominated without his consent I have no idea what he would do. As I said yesterday I believe we have a number of able men in our party for candidates and I think the candidate will be born in the convention.

## WARRING NATIONS USING AIR CRAFT ON THE OFFENSIVE

London, Jan. 25.—A British official report from Dunkirk states that two aeroplanes dropped bombs on Dunkirk about six o'clock this morning. It is added that a German seaplane was forced to the water by a British machine northeast of Nieuport about eight o'clock this morning.

Paris, Jan. 25.—The Serbian towns of Monastir and Givgeli have again been attacked by a squadron of French aeroplanes, 16 in number, the Athens correspondent of the Havas agency telegraphs. It is estimated 100 persons were killed or wounded at Givgeli.

Paris, Jan. 24.—The city of Nancy was again bombarded this morning by long range German guns, and this afternoon a number of bombs were dropped from German aeroplanes. The damages from the bombardment were inconsiderable and only two persons were wounded, while the aeroplane attack is reported to have been without result.

It was learned from Paris on January 8, that during a bombardment six persons had been killed and nine wounded in Nancy as the result of a bombardment of the city by German 15-inch guns. Alarming rumors have been circulated as to the damage caused by the bombardment and consequent panic among the inhabitants. The prefect of the department in which Nancy is situated issued a circular discrediting the rumors. On the day mentioned, President Poincare went to Nancy and passed the entire day there. As a precautionary measure, the art works in the galleries of the city were removed to Troyes. Safe conduits were issued to 5,000 persons to leave the city on the occasion of the three days' bombardment.

London, Jan. 25.—More air raids have taken place in various localities. German aeroplanes have passed over Dover in an aeroplane which engaged all the anti-aeroplane guns and was pursued by British aeroplanes. Whether bombs were dropped is not known.

London, Jan. 25.—Metz and German positions in Belgium also have been visited by Entente Allied aircraft and bombarded.

## GUERRILLA WARFARE IS WAGED BY MONTENEGRO

Come, Jan. 24.—Active guerilla warfare is being waged by the Montenegrin troops on their retreat southward, and particularly in the Tara-Bosch mountain west of Scutari, according to reports received here today. In advance of the Austrian troops who are in pursuit, a number of Austrian aeroplanes have been harassing the Montenegrins, flying low and using machine guns against groups of the poorly equipped soldiers of General Martinovitch.

New York, Jan. 25.—The second Italian armed merchant ship to enter this port recently, the Verona from Genoa, arrived yesterday with two 76 millimeter guns mounted aft. The first vessel was the Giuseppe Verdi which was temporarily detained here until assurances had been given that its guns would be used for purposes of defense only. Hadley Elam Mahon, collector of the port immediately telegraphed to Washington for instructions in respect to the Verona.

## YOUNG AMERICAN GIRL ORIGINATES DANCE, "THE SPIRIT OF PATRIOTISM"

Miss Helen Herendeen, a sixteen-year-old American girl who attracted wide attention in European capitals before the war as an interpretative dancer, has originated a dance called "The Spirit of Patriotism." ## ONLY TWO ROADS LEFT CHARGING REDUCED RATE

Charleston, W. Va., Jan. 25.—The Baltimore and Ohio and the Chesapeake and Ohio railroads today issued an order permitting the only lines which, after that date, will be carrying passengers in the state for two cents a mile, the rate provided by the law of 1907. Recent orders of the commission made the Norfolk and Western railroad and the Virginian railroad rate 2 1/2 cents per mile, while the coal and coke railroads were allowed an advance to three cents.

## GIRL WHO FELL 16 STORIES STILL LIVES

Chicago, Ill., Jan. 25.—Physicians at St. Luke's hospital early today said there was no change in the condition of Miss Minnie B. Werner, 21, who fell from the sixteenth floor of the Transportation building here yesterday, sustaining injuries of a comparatively minor character. They said chances for her recovery were excellent. Miss Werner denied that she tried to commit suicide.

## LIVED WITH TWO WIVES--BOTH LOVED HIM--CLUNG TO HIM AND KISSED HIM AS HE WAS TAKEN TO JAIL

Akron, O., Jan. 25.—Jesse Farwell, 30, expert rubber worker, was penitentiary in his jail cell here today following his arrest while living with two wives at "O-Kum-lum" cottage, Springfield Lake, near here yesterday. "Why did I ever do it?" he moaned over and over again. Meanwhile both wives are prostrated and under the care of physicians. Wife number one, who was Clara Abey, and to whom Farwell was married in Philadelphia six years ago, was at the Farwell cottage. Her mother, Mrs. William Abey, 6637 Musgrave street, Philadelphia, was with her. It was the arrival of Mrs. Abey, after her daughter wrote and told her of the Farwell's domestic arrangements, that resulted in the husband's arrest. Wife number one is the mother of the three Farwell children. Wife number two, who was Miss Irene Bennett, daughter of Mr. and Mrs. Ed Bennett, of Hudson, Ohio, was at her parents home today. She expects the stark soon. Farwell married her at Hudson last November. He did not tell her of his previous marriage until afterwards when he explained that he had been divorced,

but that wife number one was remaining at the cottage to care for the children. Wife number one explained today that she consented to the arrangement because she loved Farwell too much to see him get into trouble and because she could see no other way to obtain his care for their children. To Bennett and his wife Farwell claimed that wife number one was his sister-in-law. The Bennetts were visiting at the Farwell home when Mrs. Abey arrived and told them the truth. Then the sheriff arrested Farwell. As he was taken to jail both wives clung to him, kissed him good-bye and went.

## HEAVY SNOW IN CASCADES

Seattle, Wash., Jan. 25.—Heavy snow which began falling in the Cascade mountains last night and continues today, increased the difficulties of all the Northern trans-continental railroads, which since Saturday have been battling with the worst snow conditions they have experienced since 1910. In Canada no overland trains have been moved on either the Canadian Northern or the Canadian Pacific, while on the American side of the boundary the Great Northern is still tied up by the many avalanches which swept down the mountains Saturday and Sunday.

## AGRICULTURAL BOARD OFFICIALS RESIGN

(Bulletin)  
Columbus, O., Jan. 25.—After a conference with Governor Willis this afternoon members of the Board of Agriculture said George S. Stauffer, of Ottawa, Putnam county, would probably be elected secretary of the board to succeed Renick W. Dunlap, resigned.

Columbus, O., Jan. 25.—Both Renick W. Dunlap, of Kingston, Ross county, secretary of the state board of agriculture, and James W. Fleming, Columbus director of the state fair Republicans, today sent their resignations to the state board. They were accepted, Mr. Dunlap's to take effect on February 1 and Mr. Fleming's on March 1. The board expected to elect a new secretary before announcing today. The resignations on their face appeared to be voluntary and the reasons assigned was to eliminate friction within the department. This has existed since Mr. Dunlap was elected six months ago, it is said, and developed into ill feeling between the two officials and their respective favorites in the department. Action in accepting the resignations was unanimous. Early today the board sent a committee to demand Mr. Fleming's resignation, but when it finally was sent it specifically stated that it was voluntary. Mr. Fleming has been in charge of the concession and show business of the state fair for a number of years, even under Democratic administrations.

## WANT RAILROAD CASE REOPENED

Columbus, O., Jan. 25.—James Pollitz and Clarence H. Verner, of New York City, who allege they are representing minority stock holders and are fighting to break up the recent consolidation of the New York Central Railroad and eleven other railroads, today asked the Public Utilities Commission of Ohio to reopen the question of whether or not the merger of these railroads was legal.

This request was made in connection with a protest against approval by the commission of the New York Central Railroad's application, filed January 14, for permission to issue \$11,730,000 bonds for new equipment. The first fight of these two men was made when they objected to the commission giving approval to an issue of \$100,000,000 debenture bonds, convertible into common stock. In passing upon this issue, which was approved, the commission ruled it was without authority to pass upon the legality of the merger of the various railroads. Pollitz and Verner then started a suit in the Ohio supreme court to test the legality of the question. This suit is still pending.

Columbus, O., Jan. 25.—Consuls of foreign countries have not exclusive right to act as administrators of their countrymen who die in this country without leaving wills, the supreme court decided today. The ruling was given in five cases.

Another ruling of the court was that specifications for any public work may not be changed by agreement between the contractor and public officials in charge of the work, after the contract has been let.

## SPIRITED FIGHTING AT NIEUPORT

Paris, Jan. 25.—The French war office statement given out this afternoon says that last night there was continued artillery activity in the vicinity of Nieuport in Belgium. The results of this fire are described as favorable to the French.

German troops at one point penetrated the first line of French trenches, but they were at once driven out after a very spirited fight.

Miami, Florida, Jan. 25.—William J. Bryan today issued a statement saying he had no intention of following in the wake of President Wilson on his trip through the Middle West, making a series of speeches in answer to those of the President on preparedness. He said he would remain in Miami until he left for Lincoln, Nebraska, on February 23, to attend a birthday dinner.

# LAD FALLS ASLEEP IN MOVIE SHOW; PARENTS GET SCARE

Seven year old Joe Bressler was so carried away by what he saw in the movies at the Majestic theatre that he forgot all about home and stretched out under the seats for a peaceful sleep and incidentally scared his parents Monday night.

The boy is the handsome son of John W. Bressler, a Vulcan Last Company employee, of No. 241 Front street. It was known he had gone out with the avowed intention of attending some motion picture theatre. He had frequently done so in the past and always returned in good time but when the family clock struck ten and there was no sign of the lad a search was started. The anxious father made the rounds of all the theatres without success. The police were asked to assist in the search. The boy was nowhere to be found and fears arose that he may have been kidnapped. Inquiries were made at all of the railroad depots. Something told the father to make another search of the Majestic about 11 o'clock and the pianist found the boy lying in a heap under a seat far down in front. It is thought he fell asleep and slid down out of the seat.

# FATHER SEES SON KILLED WHEN TREE FALLS ON HIM

Isaac Schaefer, well known young man of near Gephart's Station met death in a tragic form Tuesday morning at ten o'clock, when a falling tree struck him at the base of the brain killing him instantly. The accident took place on the Julius Yelely farm in Bloom township.

Schaefer in company with his father, William Schaefer, and brother Thomas, were cutting bank posts for the Clay bank near Gephart's. They had been working on the Yelely farm for some time.

Schaefer and his brother were felling a tree when it took a rebound, striking Schaefer, who was looking for the tree to fall in another direction. He had no time to get from under the tree which was not over 10 inches in diameter at the base.

The father and other son Thomas, were horrified to see Isaac buried beneath the tree. They hurriedly pulled the tree to one side but on reaching the side of the young man found that the spark of life had flown.

News of the fatal accident quickly spread. John Reese, Frank Pool, Frank Lait, Julius Yelely, Frank Spray and Will

Wheeler carried the body to the home of Mr. Yelely, where a large number called to see the remains Tuesday afternoon.

The Yelely farm is located about a mile from the Schaefer home on Tiek Ridge two miles from Gephart's Station. The mother broke down when informed of the tragic death of her son and the services of a physician were necessary.

The young man was well known in this city and his many friends will be shocked to learn of his death. The family for sometime lived on the T. C. Anderson farm on the Boulevard. Young Schaefer was 27 years of age last October.

Besides his parents the deceased leaves three sisters, Mrs. Kate Thompson and Mrs. Jennie New-

man of Scioto Furnace and Mrs. Ella Wise of this city and three sons, Thomas and Mike at home and Will of this city. He was a good christian young man of splendid habits and was respected by all who knew him.

Coroner Dr. Walter Daehler was called Tuesday afternoon and he gave his verdict as accidental death.

## ROPE SKIPPING RECOMMENDED FOR FLESHY FOLKS

Skipping the rope atop a New York hotel.

What is a poor woman to do when the styles in clothes are all for the slender and willowy figure and when nature or good living has packed one's bones with dozens of pounds of flesh?

The answer, of course, is—GET THIN.

And that is just what society folks in New York are doing daily. Rope skipping is a healthful exercise is nothing new; but rope skipping indulged in by prominent society folks in Gotham is very popular. It is claimed that as a waist reducer, a complexion improver and developer of the lungs no other sport can equal rope skipping.

One club of society buds in New York hold daily early dawn meetings on the roof of the Hotel

Majestic. They meet at early dawn well because—that is—shucks let us be frank. They wear bloomers.

And they do not juggle dumbbells or leap over bars or anything so crude as that. No; they simply go back to the exercise of their childhood—they skip a rope.

Dr. W. G. Moynan, New York doctor, has said it is the best method for taking off chunks of fat. And they are certainly trying to achieve the chunkless bliss. The "class" goes through all the rope skipping stunts little girls do in the school yards in spring.

time, including 20 minutes of very fast jumping known as "salt and pepper."

Nerve, mental concentration and buoyant disposition are demanded when the advancing feet have the rope at the same time. There being no way by which the reverse English can be put on the attraction of gravitation and maintained for even a little while, getting away from terra firma long enough for the passage of the rope under the feet is positively awful for some women. Still they manage to do it.

The rope skipping craze was really started on December 1st, when obesity observers pointed to the thermometer and said that with cases of acute lassitude and champagne all over town there was bound to be ennuie complications which would call for something beside the tango and ice skating. It is worth any height to see twenty determined women, singly, in pairs and ensembles, going after their waist lines, ounce by ounce, and never once giving in.

# FRANK V. KNAUSS TIPPED AS NEW PRESIDENT OF BOARD OF TRADE

Frank V. Knauss, president of the Portsmouth Stove and Range company, and prominent in financial and industrial circles in this city, will be the next president of the Board of Trade of this city, if he will accept. He is expected to be elected without opposition at the annual banquet of the board Friday evening at the Washington hotel.

W. B. Anderson, who has served as president of the board for the past two years, expressed a desire to be relieved of the office this year, and the nominating committee, at a meeting Monday afternoon, acceded to his wishes. His administration had been characterized by accomplishment in matters that have concerned the general welfare of the city, and it was with much regret that the committee accepted his declination.

Mr. Knauss has been a prominent figure in the Board of Trade for years, has been a director, and for the past several years has served as one of the vice presidents.

As a compliment to Mr. Anderson he will be honored with election to the office of first vice president without opposition.

Two members of the nominating committee, Albert Marting and Charles Daehler, met at the former's office Monday afternoon and decided upon the names of the men who will be offered as candidates for officers and directors of the board.

Fifteen men will be on the ticket as directors, ten of whom will be chosen to serve during the coming year. Of the fifteen, five will be men who have served on the directorate for the past year. Their names will be given out on the day of the banquet.

Final arrangements for the banquet were made by the banquet committee, composed of John O. Bauer, John McMillan and J. D. Bridges, with the assistance of the President, W. B. Anderson, Tuesday afternoon.

E. V. Knauss will be toastmaster. W. H. Mansa, of Cincinnati, vice-president and general manager of the Southern Settlement and Development Association, and a former railroad man of prominence, will be the principal speaker. His subject will be, "What's the Matter With the Community?"

Other speakers will be Wallace Harold and Rev. Charles Oakley, pastor of the First Christian church. Col. John L. Vance, of Gallipolis, who was on the program for an address, notified the committee Tuesday morning that he would be unable to come on account of illness. His place on the program will be taken by F. M. Bagges, who will read his report on the Rivers and Harbors Bill.

Special music will be a feature of the program, and the committee is planning several unique surprises in this connection.

The banquet will be served at 7 o'clock Friday evening in the main dining-room of the Washington Hotel. Members are requested to mail their acceptance cards at once to the secretary so that the necessary arrangements can be made for all who wish to attend. If this is not done, some of the members who make up their minds at the last moment are liable to be disappointed.

## The Constipation Bugbear

OBSTINATE cases of chronic constipation, which no longer respond to the usual laxative and cathartic remedies, may be successfully treated by the use of Nujol as an internal lubricant.

The mineral oil treatment for constipation has received the unqualified endorsement of leading specialists both in this country and abroad. It has none of the dangers of the habit-forming laxatives, and is of particular value in the treatment of constipation in children.

Nujol is odorless and tasteless, absolutely neutral, and is not digested or absorbed into the system. It acts merely as a mechanical lubricant.

Nujol is not a drug. Its use will not give quick, temporary relief. But Nujol is a genuine remedy in that it relieves constipation in the most natural way by lubricating the lining of the intestines, softening the intestinal contents, and thus promoting healthy and normal bowel activity.

## VISIT MEN AT JAIL

All efforts on the part of the Pike county authorities to secure information from Edward Collins and A. B. Smith, the two foreigners arrested at Chillicothe Monday in connection with the robbery of the Beaver post-office, have proven unavailing. Mayor Cahill, of Chillicothe, and P. O. French, a post-office inspector, visited the men at the jail Tuesday morning, and the only information they could gather from them was that they left some stamps in a school house near Lexington, O. Harry DeCamp, the Chillicothe man arrested with the two foreigners, was also brought to the county jail at Waverly Tuesday.

## "CANNING" INDIAN MUSIC FOR U. S. MUSEUM

Miss Frances Densmore.

Miss Frances Densmore, of the U. S. Museum in Washington, probably knows more about Indian music than any one else in the country. She is making a book of the songs of the Red Man, and has made many phonographic records of tribal songs. Here she is shown transcribing the music from the phonograph to notes that may be played on the piano.

## FAVORS PREPAREDNESS

Washington, Jan. 25.—Republican leader Mann made a vigorous speech for national preparedness in the house today while all democrats applauded heartily. "It seems the part of wisdom for us to prepare ourselves for any possibility of trouble that may come," was the keynote of the republican leader's remarks.

## TRAMPS FOUND IN SCHOOLHOUSE

Sheriff Smith was called from the Washington hotel about nine o'clock Monday evening to investigate the report that two men had broken into the school house on the Seibo Trail near Widdig's store. Accompanied by John Nance, the policeman, he investigated and found Dan Ryan and William Johnson, two tramps, sleeping inside. They said they broke in to have shelter during the night.

## What Thin Folks Should Do To Gain Weight

Good Advice For Thin, Underdeveloped Men and Women.

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs who, having tried advertised flesh-makers, food-facts, physical culture stunts and rub-on creams, resign themselves to life-long skinniness and think nothing will make them fat. Yet their case is not hopeless. A recently discovered combination of assimilative agents has made fat grow after years of thinness, and it also unequalled, judging from reports, for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable preparation is called Sargol. Six strength giving, fat-producing assimilative elements of acknowledged merit have been combined in this preparation, which is endorsed and used by prominent people everywhere. It is absolutely harmless, inexpensive and efficient.

A few weeks systematic use of Sargol should go far to produce flesh and strength by correcting faults of digestion and by supplying nourishing fats to the blood. First, every druggist who sells it is authorized to return the purchase price. Increased nourishment is obtained from the food eaten, and the additional fats that thin people need are thus provided. Fisher & Streich and other leading druggists supply Sargol and say there is a large demand for it.

While this new preparation has been reported given splendid results as a nerve-tonic and vitality, its use is not recommended to nervous people unless they wish to add at least ten pounds of flesh.

## LOOKOUT OUT FOR AIRSHIP

Fully a dozen different persons claim to have seen some strange air craft pass over New Boston about one o'clock Tuesday afternoon.

According to Melvin Funk and John Kelley the air ship was going eastward along the

Ohio river. Mr. Funk said it was at such a high altitude that it looked like a mere speck in the sky and once a person lost sight of it it took quite a time to locate it again. Peter Wintersole, a bartender at York & Hans' saloon, claimed to have seen it some time before circling around. Others declared that at one time it lowered to such an extent that the machinery was plainly audible.

## U. S. OBJECTS GREAT PRIVATE TO THE NEW FORTUNES ARE BRITISH ACT TO BE TAXED

Washington, Jan. 25.—Vigorous opposition to Great Britain's "Trading with the enemy" act, is lodged in representations the United States is sending to the British foreign office. The communication has been prepared for transmission following the receipt of the text of the act from Ambassador Page.

Although the representations do not take the form of a protest, for the reason that the act is limited in its immediate operation to British subjects, strenuous objection is directed against any attempt to apply the legislation to American trade. The United States contends that the proposed interference with trade is illegal and that it would be impossible to aim successfully a blow at Germany without doing grave injustice to American commerce.

Washington, D. C., Jan. 25.—Legislation to increase Governmental revenues to meet the expenses of national defense is expected to take definite shape now that all doubt as to the constitutionality of the income tax has been removed by the supreme court's decision.

On all sides today the leaders expressed the belief that the decision had paved the way for increasing the tax rate on great private fortunes to aid in paying for national defense.

Bills to tax incomes of more than \$1,000,000 as high as fifty per cent are now before congress. The Democrats naturally are gratified over the decision. In the opinion of administration leaders the decision has unfettered a fruitful source of revenue and rendered easier the revenue problem confronting the government.

## How Did You Earn Your First Money?

Joe J. Schaefer, a Market street grocer, earned his first nickel doing something which at the same time afforded him sport which he fancied so strongly that he became a life long devotee of it.

Joe's first nickel was received in selling fish which he caught at the end of the wharf boat when a boy only eight years old. He said it was no trouble at all to catch a dollar's worth of fish there daily with a hand line. Mack Williamson and others did so regularly, catching more fish with ordinary tackle right around the wharf boat than one can get nowadays on twenty-five mile trips and with modern means of fishing. The fish simply no longer abound in the Ohio river

as they did in those days, says Joe and he attributes it to the pollution of the stream.

Frank L. Sikes made his first money hocking corn. He didn't like the job and jumped it. He got his money, after a while. He says it was the hardest work he did until he got into politics.

Joseph W. Mitchell says the first money he ever earned was paid him for pumping water to protect the roof of the Neill foundry, while casts were being made. He and a number of other boys were so employed and worked the skin off their hands, receiving therefor a dollar. Joe thinks this service entitles him to the honor of being the first paid fireman in Portsmouth.

Henry Fairre made his first money carrying Brooks Williams' dinner to him, Williams being a workman in the Gaylord rolling mill. He got seventy-five cents a week for his services. At that time he never thought he would be a great man and president of the Hammer club.

**CLEVER WOMEN**  
Use gasoline to dry clean everything at home and save \$5 in an hour.

You will never again pay enormous prices for dry cleaning after trying this. Any woman can clean and renew the appearance of yokes, ribbons, satins, laces, silks, furs, shirtwaists, Swiss lawn, organdie and chiffon dresses, children's clothes, suits, caps, woolen garments, fancy vests, draperies, rugs, in fact, any and everything that would be ruined with soap and water.

Get two ounces of solvite at any drug store and put it in two gallons of gasoline, where it quickly dissolves. Then put in the goods to be cleaned. After a little rubbing out they come looking bright and fresh as new. You will find nothing fades, shrinks or wrinkles requiring no pressing.

You would have to pay \$5 at a dry cleaning establishment for the cleaning which can be done at home as easily as laundering. Any grocery or garage will supply the gasoline and your druggist will sell you two ounces of solvite which is simply a gasoline soap, then a large dishpan or wash boiler completes your dry cleaning outfit.

The President's proclamation recites the resolution, which says that nine million Jews are in the warring countries, that the great majority of them are destitute of food, shelter, and clothing, and that millions of them have been driven from their homes, and countries:

"And whereas, I feel confident that the people of the United States will be moved to aid the war-stricken people or a race which has given to the United States so many worthy citizens.

"Now, therefore, I, Woodrow Wilson, President of the United States, in compliance with the suggestion of the Senate thereof, do appoint and proclaim Jan. 27, 1916, as a day upon which the people of the United States may make such contributions as they feel disposed for the aid of the stricken Jewish people.

"Contributions may be addressed to the American Red Cross, Washington, D. C., which will care for their proper distribution."

Appalled by the terrible suffering Portsmouth to help swell the fund that has fallen to the lot of hapless from this city. The appeal is unique, as probably concerted effort is being made in the United States to raise a fund to help alleviate the condition of these "pawns in the cruel game of war." The president of the United States has designated next Thursday, January 27, as the day when all are to unite in a whirlwind campaign to raise money and supplies for these innocent sufferers.

In accord with others of their race all over the country, leading members of this race in Portsmouth are making an effort to "put Portsmouth on the map" in regard to this contribution. They have given liberality of their means, and it has been decided to appeal to the people of

children are dying in want, and anguished parents can only gaze on their sufferings and watch them die. It is in this extremity, brought about by no fault of the Jews themselves, that the appeal is made to humanity.

Contributions may be given to Mr. Simon Labold at the First National Bank, or to any Jewish merchant, with the certainty the money will be applied toward helping these suffering ones.

At a great mass meeting held in Carnegie Hall, New York City, Protestant Episcopal Bishop David H. Greer, one of the speakers, said: "I am here tonight to voice by my presence, for whatever my presence may be worth, and also by a spoken word, my sympathy for the suffering, starving Jewish people; men, women and children on the other side of the seas. I am moved to do this, not merely by sentimental considerations, though such considerations are always legitimate, but as an act of justice. It is a debt, a debt in the first place which the Christian church owes to the Jewish people; it is a reparation debt for the cruelties and the crimes which it has inflicted upon them. It is a catalogue of crime, and as a Christian man, with shame for the Christian church, I confess and admit that the church whose professed faith is charity and love for all, for the brotherhood of man, for the Fatherhood of God; and notwithstanding that professed faith has inflicted such cruelty and injury upon the Jew. Not because he was a sinner above all other sinners, but because he was a Jew. And for this reason they made an outcast of him, unsheltered by the Christian state, and victimized by both.

"It is a fact imbedded in the history of the past and the right, the proper, the just thing for the Christian church to do, is to try to pay—in full measure it never can—but to overture; and the payment now should try to pay that reparation debt, and now is the time.

"In this, his bitter hour, in his starting and suffering hour, now is the time to pay it. The debt is due, it is of art, or science, or literature, or letters, in which the Jew has not been made, and I appeal, not merely to the sons of Zion here, my Jewish fellow citizens, but I appeal to my Jewish fellow citizens in this land to pay and discharge promptly and generously this reparation debt to the Jew."

NOTE—Nuxated Iron recommended above by Dr. Bauer, is one of the newer organic iron compounds. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. On the contrary, it is a most potent remedy in nearly all forms of indigestion, as well as for nervous, run-down conditions. The manufacturers have such strict confidence in Nuxated Iron that they offer to forfeit \$1000 to any charitable institution if it cannot take any man or woman under 20 who lacks iron and increase their strength 20 per cent or over in four weeks time provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and confidence in ten days' time. It is dispensed in this city by Fisher & Streich Pharmacy and all other druggists.

## TO THE PEOPLE OF WHEELERSBURG AND THE SURROUNDING COMMUNITY

This statement is to inform you that my store and undertaking business is my property and that neither Mr. Haquard nor anyone else has any partnership or share in the business. I have owned the business for the past two years, from January 8, 1914. A misrepresentation in this particular has made it necessary to make a correct and true statement about the ownership, so that my friends and the public in general may clearly understand that all patronage given to me in any way benefits me directly and the profits thereof are not shared in by another.

I desire to especially thank all of my patrons and the public in general for the business that they have given me in the past. I also desire to say that I will be in a position from now on to give better service in every way than I have heretofore.

Respectfully yours,  
LOUIS J. SNYDER.

# Will Make Penniless Work Out Fines; Police Court News

Mayor H. H. Kaps announced during police court Tuesday morning that he was going to try a new rule, that of putting common offenders who are unable to pay fines, to work but that they would not be required to do street work.

The first trio who will receive a taste of the new order of things are William Byers, a negro, who was found dead drunk at Eleventh and Railroad streets Monday night, Fred "Redsnapper" Smith, who has been a regular lodger at the city bustle of late and who fell off the "water wagon" Monday evening and Jim McCune, a hobo, who while drunk prowled around the Hempstead Hospital premises and frightened women attaches of the institution Monday night. The former two were assessed \$5 each, while McCune was fined \$10.

### Gay Trio Soaked

Three young fellows giving the names of Ernest Adams, John Phillips and Floyd Bowman were fined \$25 each for their general misconduct Monday afternoon. They had been drinking and caused quite an uproar in the vicinity of Eleventh and Gay streets, by throwing missiles at houses, tearing pickets off fences, insulting women, trying to kick out a crutch from under an aged cripple and helping themselves to bologna in a meat market at Tenth and Chillicothe streets.

Bowman was also committed to the Cincinnati work house to serve out a fine of \$50 and costs for recently breaking a large window at James Goodposter's grocery, he having failed to repair the damage as agreed to.

Phillips pleaded not guilty, but admitted being with the other two and said his stepmother had provided him with the beer that he drank at home.

Pleads Not Guilty

To Destroying Property

Roy Ward, colored, pleaded not guilty to maliciously destroying \$10 worth of furniture at the home of Mrs. Ada Case, of No. 1158 Thirteenth street during a fight with John Burns, a negro, a few nights ago. It developed from his own testimony, however, that he had charged Burns into the home saying he was so mad he did not know what he was doing and then thought it was Burns' own home, declaring that he quit fighting and took leave as soon as Mrs. Case and her children appeared. The mayor held that Ward had no reason whatever for entering the house; and as he was the only one of the belligerents having a job fined him \$10 and costs, suspending the

same on condition the damage to Mrs. Case is paid.

### Lefty Grice Is Fined

Lefty Grice pleaded guilty to disorderly conduct in entering the pool room of Gus Esares, of Chillicothe street, calling him vile names and daring him out side to fight and threatening to strike and wound him. He was fined \$10, half of which was remitted pending good behavior and on condition that Grice remain away from that pool room in the future.

### Monday Evening Police Cases

Cases disposed of by the mayor Monday evening were the following: Ed. Kitchen for threaten-

ing to wound Tom Brewer was given a \$5 suspended fine. A man giving the name of Jim Mitchell, charged with disorderly conduct and creating a disturbance at his home, was fined \$10, which was suspended, pending good behavior. Carl Sugowitz, who assaulted one Joseph Smith with a bottle, was fined \$25 and costs and sentenced to 30 days in the county jail. Ben Ferguson, alias Collins, charged with intoxication, forfeited a \$10 cash bond. A plain drunk giving the name of Herbert Jones was given a \$5 suspended fine. Halfway Joe Stokley was again obliged to remain at home on account of illness Tuesday and Officer John Smith looked after his duties at headquarters.

## FR. GLOECKNER'S CHURCH TO ERECT A SCHOOL

Irouton, Jan. 25.—The congregation of St. Joseph's church has started a fund for the erection of an elaborate new school building on the east end of the church property, between Adams and Jefferson streets, and within a brief time plans will be adopted and work begun on the new building, which will be sufficiently large to meet all requirements of the congregation in the future. It will be spacious and architecturally beautiful, along the lines of the most modern educational institutions, something that the entire city will be proud of. The plans for the building have already been drawn but no definite steps have yet been taken with regard to their adoption.

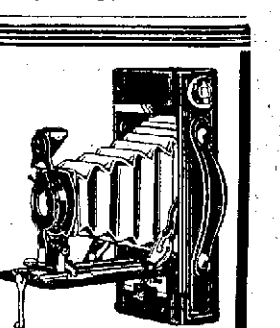

Father Gloeckner announced Sunday that St. Joseph's church was now clear of debt and that \$1500 had been transferred to the school fund. The late Father Schneider left a bequest of \$500 for the new school and there was also a \$9 donation by others and this brings the total school fund to date to \$2,009.

## Club Five Won

By reversing the score, the Club-German Evangelical basketball game of last Thursday was repeated at the Club gym Monday evening when the Club team won from the "Dutchmen" by a score of 25 to 17. The church team won from the Club by the same score last week. Monday night's game was the first victory for the Club this season and the first defeat for the "Dutchmen." The two teams will play the "rub" next Monday evening in the Club gym. Woods starred for the Club five. He was in every play and the victory can be attributed to his good floor work. Bellamy and Davis played well. Henage for the Club got away from his man in the last half and made three goals. Gims and Uhl did the heavy work for the G. E. five. Rowe came across with an extra long shot that was unusual. Uhl also made a difficult shot while Winters of the Club made two field goals that were out of the ordinary. The first half ended with the score 13 to 3 in favor of the Club. The "Dutchmen" took on new life in the second which ended with the Club making 12 points to the church team's 13. The line-ups:

G. E. CLUB  
Gims RF Woods  
Uhl LF Henage  
Rowe C Winters  
Kugelman C Bellamy  
Schinsky, Kah. LG Davis  
Field Goals—Woods 6; Henage 3; Winters 2; Gims 4; Rowe 1; Uhl 1. Free Goals—Gims 4; Uhl 1; Winters 1; Woods 1; Davis 1. Referee—Hollingsworth. Time of Halves—20 minutes.

## NEW SWIMMING RECORD

New York, Jan. 25.—The Columbia swimming team bettered the intercollegiate record for the 200 yard relay event by a fifth of a second in the meet with Cornell last night, winning in one minute, 43.4 seconds. The previous record was made by Yale last year. Columbia won the meet 22 to 11.

## RAISED \$75,000 IN TEN MINUTES

Chicago, Jan. 25.—Charles Waghman, now owner of the Chicago National league baseball club, was asked for the name of the banker who is one of his backers.

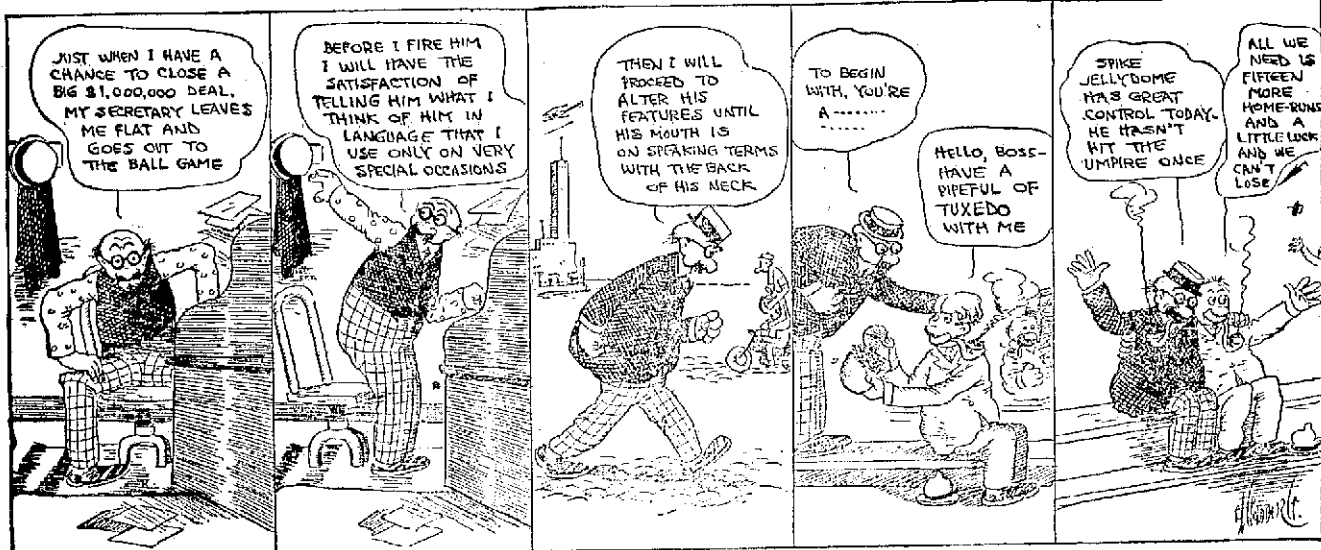

"I can't tell his name," said Waghman, "but here is the kind of a sportsman he was. Last Thursday as the last moment for the transfer of the National league drew near, I found myself \$75,000 of the \$300,000 purchase price. The check of two men who had taken stock had failed to arrive. So I called up the banker."

"I've got to have \$75,000 in the next ten minutes," I told him. In eight minutes he appeared in my office with \$75,000 in bills. The next morning the checks arrived by mail."

### Received Offer

It was learned Monday that Harry Edwards, secretary of the Workmen's Protective Publicity Association, of this city, just recently received a flattering offer to go to Lansing, Mich., and carry on a similar line of work there. After considering all angles of the offer Mr. Edwards says he preferred to remain in the River City.

## What People Think

He owns a picture house? Well, that's immense. What does he charge? Most always ten cents. It used to be a nickel a few years ago, and they had a blame good show. They could still charge five cents if they wanted to—then maybe I'd take in one or two.

They've made lots of money in such a short time, and it looks very funny that they raised to a dime. Gee, the people just flock in the door, and it looks as if they're a thousand or more. They're getting rich quick, for I can see the nickels and dimes as plain as can be.

I buy my ticket, the money in sight. You can tell they're having one big night. They're doing great business for these hard times, and I wonder what they do with all the dimes. I guess they put them all in the bank and among the first depositors rank.

THE FACTS.  
You don't see managers in movie cars, or smoking real Havana cigars. They don't own a swell home on the hill, and most of them owe for their grocery bill. They're not getting rich as you may think. In fact the game is on the blink, for films that used to cost eighteen a week are now out of date and poor, so to speak. So to get what the patrons desire, the cost has gone to fifty and higher. And then if you get a theater or two, your film bill is doubled on you.

Of course there's your rent, your heat, your time, included in things to pay with that little dime. The operator, too, must get his dough, because if it wasn't for him there'd be no show. The drummer, the piano player as well, and a thousand things more that we could tell, and then no matter if business is lax, we still have to pay that old war tax. We don't ever show a thousand or more, cause there's only three hundred seats nailed in the floor. We don't make much—in fact it's little. If you don't think so, ask G. A. Smith, of the Temple theater.

### Taken To Pen.

# EVERY SINNER MUST MEET HIS GOD SOMETIME

## Trinity Revival Is In Third Week And At Full Speed; Big Crowds Attending

(By Leroy E. Bittner)

The song service of last night's meeting was undoubtedly one of the strongest parts of the service. The choir, composed of forty-two voices, made the large building fairly resound with their songs. Another big feature was the orchestra, composed of our best local musicians, namely: Messrs. Walter, Clarence and Albert Clousing, William Tromp, Charles Bennett, Miss Blake and Mrs. Crawford and Miss Aylesworth at the piano. Five songs were sung before Prof. Grant called for three prayers from the audience. "Are you listening to the Savior's Call?" was then impressively sung by the Aylesworth sisters, and was intently listened to by the large audience.

Rev. Reed then announced that meetings for the following day viz: No meeting at dry headquarters, but meeting for men in the basement of the church every evening at 7 o'clock.

Drew factory 12 o'clock noon, Prof. Grant and Rev. Reed.

Sally factory 12 o'clock noon, (women only) Rev. Chandler and Miss Aylesworth.

Prayering at Trinity church Wednesday afternoon at 2:00 o'clock by Rev. Reed.

Friday, close of school, Trinity church, for boys and girls.

Next Sunday afternoon, another "Men Only" meeting at Trinity.

"Women Only" meeting in one of the churches to be announced later.

After the offering Prof. Grant sang a very impressive solo:

"Coming home, coming home,  
For I can no longer roam;  
I am sad and broken-hearted,  
And I'm coming, coming home."

Rev. Reed's sermon was very short, but straight to the point. He told the people warned up to the "fever heat," and then stepped and the audience did the rest. He took his text from Hebrews 4:16: "Let us therefore come boldly unto the throne of grace, that we may obtain mercy, and find grace to help in time of need."

"Every sinner must meet his God, but when?"

"The last prayer meeting shall be on the Judgment Day when the sinner shall call upon the angels to crush him, but in vain. Is there no place where the sinner can find mercy? The sinner knows that he cannot meet his Savior face to face on the Judgment Day and receive mercy. One of the sweetest words in all

Prof. Grant does not impress  
one as a typical Kentuckian in  
manner or accent. For all  
any one can tell he might be a  
product of the Miami, the Scioto  
or the Mohawk valley. His sing-  
ing last night of "I Am Coming

Rev. Reed first asked everyone  
in the audience who had been

saved for over forty years to  
stand. Don't be afraid of your  
age, said he, and many took the  
floor.

"Now over thirty years", and  
many more arose. He went down  
the line to one year and most of  
the audience was on their feet.

"Now", said he, "how many  
have been saved over one hour?"  
And it was nearly unanimous.  
He then offered the invitation  
and about twenty-five went for-  
ward to the altar.

An old-fashioned, rousing tes-  
timonial service was then held.  
Many hundreds testified, some-  
times a dozen at the same time.  
Many persons lingered after the  
congregation had been dismissed  
and did personal work among

those that lingered.

### NOTES

At the end of Prof. Grant's  
solo the words were: "I am com-  
ing, coming home". Just as he  
finished an N. & W. passenger  
train shrieked the whistle for the  
crossing and the reporter thought  
of how glad he was to come home  
many times from a trip. But  
what a grander home we will be  
going to when we enter the gates  
of heaven.

Rev. Reed said in his sermon  
that some one in the choir of his  
"Faith-healing prayer meeting"  
was crying, "Oh Lord! send me a  
husband." Possibly some in our  
grand choir last night felt like  
crying out "Amen!"

## "Blue Monday" Can't Stop Enthusiasm At Trinity Revival

(By Milford Keyes)

Yesterday was "Blue Monday,"  
spiritually speaking, also "wash  
day," hence the crowd at Trinity  
last night was not as large by a  
few hundreds as that of Sunday  
night. Still it was a great crowd  
and a beautiful one, and the feel-  
ing and interest were fully up to  
that of former meetings.

The text was Hebrews, fourth  
chapter and 16th verse: "Let us  
therefore come boldly unto the  
throne of grace, that we may ob-  
tain mercy and find grace to help  
in time of need." The sermon of  
the evangelist was a strong one,  
and dealt with the necessity of  
coming to the Lord in time of  
trouble, but said people should not  
wait for trouble but come to the  
throne of grace and thus antici-  
pate trouble and shut it out.

### Notes

Evangelist Reed doesn't believe  
in what he calls "Pussy wants a  
corner" prayer meetings. He de-  
scribed to a nicely the regulation  
prayer meeting, with its formal-  
ity and deadening influences and  
threatened to conduct a prayer  
meeting himself some time before  
the meetings close and show the  
people what a real prayer meet-  
ing is, or should be like. About  
the saddest thing he knew of was  
the average prayer meeting. A  
funeral would seem like frivolity  
in comparison to some of them, he  
said.

John Jones, ex-postmaster, at-  
tends the meetings, and enjoys  
them. "Johnny" is a Presbyterian,  
and when he was married he  
didn't haggle over the matter but  
went gallantly with his young  
wife into the church of her choice,  
the "Old First." The family is  
not a "hyphenated" one. Still  
Mr. Jones has a kindly feeling for  
his mother church, Bigelow, and  
loves to talk of the days of Ewing,  
Gordon, Phillips, Manly and other  
lights of yester year.

Evangelist Reed and party  
made a trip to the Kentucky hills  
yesterday, chaperoned and piloted  
by young men of Trinity, and  
enjoyed the scenery and the trip  
generally. Mr. Reed was sur-  
prised to find that the people on  
both ferry boats, crew and pas-  
sengers, seemed to know him, and  
spoke to him. He thinks this is  
evidence that the influence of the  
revival is spreading into other  
counties and other states. He  
also spoke of a discordant tone in  
the matter of much profanity on  
the boats.

Mr. Reed spoke of wives who  
ask prayers for wayward hus-  
bands that they may spend their  
time at home instead of elsewhere.  
"Sister, you have the wrong view  
point and are on the wrong  
track," he said. "What you  
need to do is to bring God into  
your home and make it pleasant  
from the God point, then home  
will be a heaven to your husband  
and you couldn't keep him away  
if you wanted to." Many prayers  
asked no church, he said, when  
a little frisky evangelism is what  
is needed.

It is reported that two hundred  
seekers and over have thus far  
come forward during the meet-  
ings. The black draped mourn-  
ers' bench does not frighten them  
off, though it is not a thing of  
beauty, nor intended to be.

## Boy Scout News

(By Milford Keyes)

The brass instruments helped in  
the accompaniments again last  
night.

Evangelist Reed is an English-  
man, but not the "typical Eng-  
lishman," whatever that may be.  
He is short and stocky and his  
face is English all over, but he  
drops no "h's" and puts none  
in where they do not belong.  
Neither does he substitute a ter-  
minal "k" for a terminal "g."

Also he doesn't give a word the  
sound of broad "i" when it  
should be broad "e." His accent  
is the rich English "burr" we read  
about in the novels, and always  
hear when English people of edu-  
cation and culture are speaking.

## GRANDVIEW AVE. CHURCH NOTES

Two hundred and thirty-four  
were present at Bible school Sun-  
day. All departments of our  
school were ahead of last Lord's  
day. Our primary department  
certainly gave us grown-ups a  
happy surprise, as they had 62  
present, and you bet each one  
was a live member, and under the  
able leadership of Miss Kidd and  
Mrs. Ben Jones and with such  
able and consecrated teachers as  
Mrs. Thomas Wall, Mrs. Fred  
Thomas and Mrs. Johnson, we are  
expecting great things from this  
department.

Mothers and fathers please  
bring the children next Lord's  
day, as their presence make us so  
glad and happy. In fact, I know  
of no better place for you and  
your family to spend an hour  
than at Grandview. Come!

As usual, and seems as could  
not be otherwise, E. G. Hamilton  
at 10:15 preached the greatest  
sermon of them all. In fact, we  
thought so until we heard the dis-  
course at 7:00 p. m., and now we  
wonder how he can beat it next  
Lord's day. But he will. Come

next Lord's day and you will not  
go away empty, but will be filled  
with the truth of the gospel, as E.  
G. Hamilton preaches only the  
Word. Have you heard him? We  
invite you. Always welcome.

Wednesday afternoon at 2:00  
p. m. the Loyal Women of Grand-

vited to attend this meeting.

## Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, O. Office Phone 60.

Dear Miss Wise—Please print in your column as soon as possible the address of the Buckeye Incubator Co. B. L. Springfield, Ohio.

Dear Miss Wise—To settle a dispute I wish you would give me your opinion on the following subject. Should a man regard his right to vote as a duty or a privilege. POLITICIAN.

I would consider it a duty and also a privilege to vote.

Dear Miss Wise—I was told not long ago that all Spanish war veterans could draw a pension if they would go after it. Now I was in that war and would like to have a pension if I'm entitled to it. How would I go about securing one? SPANISH SOLDIER.

A survivor of the war with Spain is entitled to a pension on account of any existing disability in a pensionable degree which was incurred in the line of duty in the military or naval branch of the United States. The employment of an attorney is optional with an applicant, who may write to the commissioner of pensions, Washington, stating his claim, the organization in which he served and length of service. He will then be furnished with the proper blanks and fully advised as to the evidence necessary to complete his claim. If you will call on J. J. Davidson, local pension agent, of 1407 Fourth street, I am sure he will be glad to assist you in your efforts to secure a pension.

Dear Miss Wise—Please advise me. I am a married woman with two small children. My husband has played me false and I am now suing for a divorce and alimony for my children. Since I have sued he has asked me to give him another trial, that he will do right by me and the children. When I left him he wouldn't work and would not provide for me and the children. Since I have left him my father is keeping me and wants me to have nothing more to do with my husband. Now, what is your advice? He has begged so hard for one more chance to reform, thought I would ask your advice. So please help me. WORRIED WIFE.

Give him another chance by all means.

Dear Miss Wise—What will the spring suits be like, tight fitting or loose? MADGE.

It's too early in the season to be sure of the exact style that will be worn. Some of the jackets will

be of medium length with ripple or flare tail.

Dear Miss Wise—I am troubled greatly with dandruff. I have such beautiful long thick hair and I'm afraid it will ruin it. Please suggest a cheap and harmless remedy. ELIZABETH.

Dandruff makes the hair fall. The following dandruff remedy has given satisfaction to many: To an ounce of sulphur add a quart of soft water and during intervals of several days shake the mixture repeatedly. After the sulphur has settled to the bottom of the receptacle, use the clear liquid. Saturate the head with it every morning, and in a few weeks every trace of dandruff will have disappeared. The hair will become soft and glossy, and there will be no return of the old trouble. This remedy, however, will darken the hair. The following remedy for both light and dark hair does not work as quickly: Boracic acid, one dram; lavender water, two and one-half ounces. Mix and massage into the scalp every other night.

Dear Dolly—What will take a red stain made by a red sock fading on white goods out of the white goods? CURIOUS.

Naphtha soap will take it out. You could also boil it. Put a little cleanser or soap powder in the water and it will come out in a jiffy. Moral: Don't wear red socks; wear a red tie instead.

## From the Stable to the Bottle

We try to safeguard the purity and wholesomeness of our milk at every step.

We insist upon sanitary conditions in the stables where our milk originates; everyone handling our milk is instructed as to sanitary precautions in handling and all utensils employed in handling and bottling the milk are kept scrupulously clean.

Then we go a step further.

Because dairy authorities tell us that milk as it comes from the cow's udder may not always be pure and wholesome, and it is almost impossible to avoid at least some contamination in handling, before our milk is bottled it is all centrifugally clarified by the De Laval Process, which removes every vestige of dust, sediment, etc., which may have gotten into the milk after milking, and any pus cells, slimes, etc., which may have been in the milk previous to milking.

Insist on getting our milk which is clarified by the De Laval Process.

All our milk is clarified with this machine

An item of interest to many in Portsmouth, taken from a Fort Collins, Colorado, paper, was sent to Mrs. Irving Drew, as follows:

"Late this afternoon Miss Nora Towse and Myron G. Blair were married at the Presbyterian parsonage by Dr. J. G. Kline. It was a quiet affair and attended by only the immediate members of the family.

"This marriage marks the last of many changes in the family affairs of Charles H. Towse, the expert machinist, during the past 25 months. Mr. Towse came to this city four years ago. He brought with him his wife, his two daughters and his son, Charles. Family affairs ran smoothly for nearly two years. It was 25 months ago that the family was stricken by the death of Mrs. Towse. Not long after that came the marriage of Charles Towse, the son, and then of the daughter, Marie. The family home was rapidly being dissolved. Today the marriage of Miss Nora Towse leaves the head of the family shifting for himself.

"There is compensation, however, for Mr. Towse is seeing his children happily married. Miss Nora, married today, has many friends here who will extend congratulations. "Mr. Blair, the groom, is a graduate of the college here, and at present is book-keeper for the Continental Oil company in this city. He has provided a nice home for his bride.

"The bungalow on Akin street, which has been occupied by Clint Lusk, has been fitted up by Mr. Blair. Mr. Lusk has secured a position in Colorado Springs, and vacating the residence at this time fits nicely with the plans of Mr. and Mrs. Blair. They have gone into the new home and will not go away at present for a honeymoon trip.

Mr. and Mrs. Towse and family resided in Portsmouth for several years and were members of the Second Presbyterian church, where they had many friends.

## THEATRICAL

At The Sun

Commencing Thursday at the Sun theatre an all Keith vaudeville bill will be presented as an experiment to determine whether or not Portsmouth will support high class vaudeville. Especial care has been used in the selection of talent for the initial bill and each and every act is direct from the Keith circuit. In the event that the patronage warrants genuine Keith bills will be presented the last three days of each week ranging in cost of acts alone from one thousand to fifteen hundred dollars. Manager Lee is very optimistic as to the outcome of the experiment.

The bill as outlined consists of the "Six Little Song Birds", Ward and Faye, Eugene Brothers, Daly and O'Brien and Three Dolly Sisters. The Song Birds is a dainty song and dance act.

Ward and Faye are two English chappies in a conglomeration of sense and nonsense with whistling and yodeling interpolations added for good measure. The act is a sure cure for the blues and all cases of grouch. The act is so refreshingly original with clever comedy that it always proves a big hit.

The Three Dolly Sisters are instrumentalists of wonderful ability.

Eugene Brothers are a comedy duo that accomplish almost impossible feats on triple bars.

Daly and O'Brien are billed as the "Tanglefoot Dancers" and Dan Daly has the distinction of being the only eccentric dancer that actually dances on his ankles.

Each and every act carries with it the endorsement of the management and it is positively the first time an all Keith bill has been presented in Portsmouth.

## News From the Home of the Coffee Bean

Mr. Frank G. Carpenter, noted correspondent, writing from Santos, Brazil, said to be the chief coffee port of the world—in an article in the Los Angeles Times of Oct. 30th, 1915, says:

"The people here believe in coffee. They talk nothing else and as they talk they drink. They drink so much of this beverage that they grow sallow, and the muscles of their faces twitch continuously. When one of them sits in a chair, resting his toes on the floor, his knees bob up and down with nervousness, and the whole system seems afflicted with St. Vitus' Dance."

Very interesting!

And what, pray, is there in coffee that makes people sallow and nervous? The drug, caffeine—about 2 1/2 grains to the average cup—a powerful irritant of the nerves and delicate tissues of the body.

Of course not everybody is affected so severely. But caffeine is a cumulative poison, and sooner or later it gets in its work with many users—slowly with some, faster with others.

Is it wise to tamper with such a menace to health? By far the better way is to leave coffee alone, and for a pleasant, delicious table beverage use

## INSTANT POSTUM

—the pure food-drink.

Postum is made from prime wheat, roasted with a small portion of wholesome molasses, and contains no drug or harmful substance whatever—only the goodness of the grain.

There are two kinds of Postum. The original Postum Cereal, which requires boiling; and Instant Postum, the soluble form, which is made in the cup with hot water—Instantly! They are equally delicious, cost about the same per cup, and both are good for the nerves, good for the general health.

# LOCAL BOY EYE WITNESS TO BIG RIOT IN EL PASO, TEXAS

Walter Darby, an old Portsmouth boy, who just returned home after a number of years spent in the United States regular army, was an eye-witness to the riot in El Paso, Texas, that followed the massacre of seven American soldiers by Mexican bandits recently.

Darby said every Mexican caught on the street was driven to cover that night and a number of them were roughly handled. Darby says that most of the reports of clashes between the United States soldiers and Mexicans were exaggerated. There are now 8,000 regulars doing border duty in that section and they are taking up something new in warfare every day, improving their system of trench digging and making practical trysts of other things learned from the big European war. He said that Uncle Sam's boys follow events of that war with great interest and many of them feel that sooner or later we will become involved in it. They do not say much about it, but are willing and ready to step right in on a moment's notice.

Darby says that the American army is not very big, but what there is of it is right up to snuff and the soldiers compare with the best of them to be found anywhere.

Darby expressed the belief that armed intervention in Mexico was inevitable.

The boys in the army, said Darby, have no earthly use for Villa or Carranza, disliking one just as much as the other. Previous to the recent massacre of the seventeen Americans, the soldiers assumed a rather indifferent attitude to the battle-torn country, but have since been aroused to a high pitch and are eager to avenge the recent outrage.

Darby was a member of Company F of the Sixth United States Infantry. This is the old fighting Sixth which was formerly stationed at Fort Thomas, Ky., and which did such gallant service in Cuba during the Spanish-American war.

## Mr. Daugherty Well Pleased With Portsmouth Reception

Hon. Harry M. Daugherty, Republican candidate for U. S. Senator from Ohio, left early Tuesday morning for Columbus after having spent the time from Monday noon in Portsmouth in the interests of his candidacy.

Many local citizens met the Senatorial candidate at the informal reception in the Washington Hotel lobby Monday evening. After the reception was over, Mr. Daugherty stated to The Times that he was more than pleased with his reception in Portsmouth, and that from the assurances of support he had received while here, he was satisfied that he would make a fine showing in Scioto county at the primary election.

Seventeen local Republicans took dinner at the Washington Hotel Monday evening along with their distinguished guest. In the number were Philo S. Clark, Charles E. Hard, George M. Osborn, Frank V. Knauss, Dr. P. W. Young, George L. Davis, Harry Becker, F. W. Meyers, E. W. Smith, Gilbert Dodds, Anselm Skelton, Roy McElhenny, John W. Hall, Sampson D. Eckhart, M. J. Caldwell, Roy Coburn and Samuel Hershov.

After dinner, Mr. Daugherty spent a pleasant hour or two meeting voters. Prominent among the men who called to see him were Levi D. York, Ben H. Dillon, Roger Selby, Ralph Calvert, W. H. Williams and others. Practically every city and county official was represented in the crowd at the hotel.

After an hour or so of hand-shaking, Mr. Daugherty was called upon for a speech. He was introduced by Judge Osborn, who designated him as a Southern Ohio Republican, and a loyal one.

Mr. Daugherty said in part: "I thank you people very much for calling on me this evening. I didn't expect to make a speech. I came down here just to meet the folks. A candidate for office owes it to the people to show himself among them. If you are to be my constituents, I want to see you and I suppose you want to see me."

"It is the duty of every candidate who is willing to submit his name to go around and see them. I didn't see all whom I would have liked to have seen, owing to the lack of time, and I appreciate the Mayor's Wonderful Remedy and the fact that some of you have come down here to see me."

"If I were to consult my own wishes, I probably would not be thankful. I am recommending it to every person I meet, suffering with this ailment."

Mayor's Wonderful Remedy. The office of senator is a high office, and is just as high if it is filled by a man who is not a citizen of the state in the interest of the people. No more disservice to the state than the office of U. S. Senator will be the most important one in the world, outside of the office of the president of the United States.

"After the European war was

over, industrial conditions in this country will have to be improved. I stand for a protective tariff, adjusted on the same safe and sane basis that was advocated by President McKinley. The tariff is a partisan question.

"It is a question on which the Democratic party is always wrong, and the Republican party always right. If the Democratic party was right on every other question and wrong on the tariff, you will have hard times in this country. If the Republican party was right on the tariff and wrong on every other question, if such a thing would be conceivable, you would have good times in this country."

"I favor the adjustment of the tariff on the same old lines under which the government in this country was prosperous. The Republican party insures safe and sound industrial conditions."

"There are other candidates for the office of Senator, all good Republicans, entitled to your admiration and respect. I can say too that they are entitled to your support, for I have been supporting them loyally almost all of my life."

"I have an ambition to go to the United States Senate from Ohio. I will be 56 years old tomorrow, and it will always be a pleasure for me to refer back to the day before my 55th birthday anniversary on the opening of my Senatorial campaign in your city. If nominated and elected, as I confidently expect to be, I pledge myself to preserve the traditions of the party. If any of the other candidates are successful, I pledge to them my support. I am accustomed to discouragement."

"I want to thank you again for coming down to see me, and hope to see you again before the present campaign is over."

After his speech, Mr. Daugherty mingled for another hour or so with his local friends in the hotel lobby before he retired. He expressed himself numerous times as pleased with his local reception and seemed satisfied with conditions here insofar as they affected his candidacy.

From now on until February 3rd, Mr. Daugherty is booked for an address every day in some city in Ohio. On February 3rd, he delivers an address at the annual meeting of the rubber manufacturers in New York City.

## Germany Reported "Repentant" Over Lusitania Case

Washington, D. C., Jan. 25.—Secretary Lansing had before him today another written proposal from Germany designed to bring about a settlement of the controversy over the sinking of the liner Lusitania. It was submitted through Ambassador Von Bernstorff. Although strict secrecy surrounded the negotiations, it was indicated today that the proposal might result in a satisfactory ending to the long standing negotiations on the subject.

It is understood that in the latest proposal Germany has agreed to eliminate from the text of the agreement any mention of the warning issued by the German embassy the day the Lusitania sailed and has left out her proposed general reservation of admission of wrongdoing on the part of her submarine commander. These two points, it is understood, were contained in previous proposals and were strenuously objected to by President Wilson.

It was also said that in its latest proposal the Berlin government makes some reference to a desire to see this country take action in regard to questions involving the freedom of the seas.

Germany, it is said, reiterates that the torpedoing of the Lusitania was an act of reprisal for the British blockade of the German coast. Regret is expressed for the loss of American lives and indemnity is offered. Attention is called to the fact that such forms of reprisal have been discontinued as the result of negotiations with the United States.

## IS YOUR COMB FULL OF FALLEN HAIR?

What To Do When Hair Comes Out.

Loose hairs in your comb and brush is Nature's way of waving a red flag in your face to tell you that your hair and scalp are losing vitality and that it is time you did something for them. Don't disregard the warning. A little attention now may mean long, thick, luxuriant hair for you for years to come. A little further neglect and thin, dry, dull, lifeless brittle hair and finally baldness may result. To vitalize the scalp and to bring back the entire cell life of the hair—from root to tip—helping healthy growth and stimulating a beautiful glossy texture and glorious luxuriance. Notice how quickly your hair stops coming out on brush and comb—how it is easier to handle and dress and how all signs of itching or dandruff quickly disappear. It is not expensive.

## ALLEGED YEGGMEN TO BE TAKEN BACK TO WAVERLY

Details of the capture at Chillicothe of several men suspected of having blown a safe and robbed a general store at Beaver are given by the News-Advertiser of that city, as follows:

"Edward Collins, 23, Chicago, and A. B. Smith, 45, no home, were arrested by Patrolman Burns at 6:30 o'clock as suspects in connection with a safe-blowing at T. Schenck's store at Beaver, in Pike county, early Monday morning. Harry DeCamp, local man, was found with the two men and is being held for investigation."

"The local police department received word of the safe blowing at 4:35 o'clock this morning. About \$10 in nickels and pennies were taken from the safe. A D. T. & L. hand-car was stolen from a shed nearby, and on this, it is thought the yeggmens rode to Glen Jean and there boarded an N. & W. train. It is thought the men threw the hand-car into the Scioto river before taking the train. No trace of the hand-car could be found."

"After receiving word of the case, Captain Hameback, of the local department, met the first N. & W. freight train passing through the city. This was at 5:05. The train was stopped and a search was made, without results."

"At 6:30, however, another train was stopped, and in a box car partially filled with coal, Patrolman Burns found Smith, Collins and DeCamp. DeCamp claims he boarded the train at Portsmouth and did not know that the other men were in the car. When Burns boarded the car the first named two began to push some articles away from them. These articles were found to be a bottle containing three ounces of nitro-glycerine, an explosive used by safe-blowers, a bottle containing fuses and caps and two sacks, one containing \$3.75 in pennies and the other \$9.70 in nickels. In the latter sack several rolls of nickels were found wrapped in bill heads bearing the name of the robbed store-keeper."

"Both men carried loaded revolvers. Collins told several conflicting stories, but Smith declined to talk. They were taken to the city prison. Sheriff B. F. Eather, of Pike county, and Marshal Ed Helbel, of Waverly, arrived at 5:55 o'clock to take charge of the prisoners. Collins and Smith were arraigned in police court in charge of carrying concealed weapons and bound over to the grand jury in the sum of \$1,000 each. Both pleaded guilty."

"Detective Henry James, of the Columbus police department, was notified of the arrests and came to this city at 12:30 to look at the prisoners. He thinks they are wanted at Somerset, Ky. They will be photographed before they are taken back to Waverly."

**FINE OFFER RECEIVED**

## THE NEWEST REMEDY FOR BACKACHE, RHEUMATISM AND DROPSY

**Kidney, Bladder and Uric Acid** This is a good time to take "Annu-rin", the new discovery of Dr. Pierce for Kidney trouble and Backache. Neglected kidney trouble is responsible for many deaths, and Insurance Company examining doctors always test the water of an applicant before a policy will be issued. Have you ever set aside a bottle of water for twenty-four hours? A heavy sediment or settling sometimes indicates kidney trouble. The true nature and character of diseases, especially those of the kidneys and urinary organs, can often be determined by a careful chemical analysis and microscopic examination—this is done by expert chemists of the Medical Staff of the Invalids' Hotel. If you wish to know your condition send a sample of your water to Doctor Pierce's Invalids' Hotel, Buffalo, N. Y., and describe your symptoms. It will be examined without any expense to you, and Doctor Pierce or his Staff of Assisting Physicians will inform you truthfully.

During digestion uric acid is absorbed into the system from meat eaten, and even from some vegetables. The poor kidneys get tired and backache begins.

## Hibbs Co. Elect

## WOMAN'S MIND IS AFFECTED

The police were called to take charge of Mrs. Mattie Biggs, colored, who was "cramming out" and otherwise acting strangely at the front entrance to Hempstead hospital Monday afternoon.

The woman had managed to escape the vigilance of relatives and slipped away from the home of her grandmother, Mrs. Martha Valentine of 1114 Gay street. They were busy searching for her in the neighborhood when word came that she was at the hospital. The family physician, Dr. S. B. McKerrigan, enlisted the aid of the police. When they reached the hospital the woman was sitting on the veranda. By the time the service wagon drove around the building and back to the front a nurse had escorted works plant.

## YES, THIS IS THE LIFE

Speaking of our recent congressional career, the Georgetown News-Democrat, under the heading of "This is The Life After All" had this to say:

"There is no place for attack in the statement we note issued by Editor Harry Taylor, of The Portsmouth Times, that he will not seek the Democratic nomination for congress in the Sixth Congressional District. Admitting that the 'political bee' hummed continually about his sanctum, when friends insisted that he could not only get this nomination, but would be elected, and would make the district a splendid representative in the lower national house, he at last ran across a friend, who incidentally dropped the remark, 'What do you want with it?' These six little words germinated and drew him back among the clinking of the linotypes, the smell of the inks, the inspiration of his newspaper work and to a realization that being a citizen, free to speak to and for the people in honesty and fairness, was an honor far more to be sought than could come from political preferment. The very best of reasoning. And we repeat that we see no place to attack, wherein we could change him from the conclusion he has reached. Again, when we learned that, we who are honestly in this newspaper building game, have a co-worker who would not swap for political honors, we arranged our pencil, shears and paste pot on one side of our typewriter, our note book upon the other, took a look over the shop to see that all was well, and kept humming over to ourselves, 'This is The Life. This is The Life.'"

## THE WONDER OF IT

We are reading today alternate tales of how the Montenegrins have been annihilated by the Austrians and how the gallant band fighting for their rugged land refuses to be annihilated and means to fight down to the last man.

It is strange there should be so much ado about so little. Montenegro is one of the most inhospitable climes that man ever picked out for abode. The country is bleak mountain peak and only less bleak mountain side. It has no manufacturing industries and its agricultural production is so parsimonious that its people know nothing of luxury and little of comfort and plenty. All told its population numbered at the beginning of the war about 300,000 and its total fighting strength is said to have reached as much as 60,000 men. It was only the next to impregnable fastness of their land that has enabled them to hold out against the hundreds of thousands Austria has hurled against them, that and the indomitable courage and steadfastness of the race. Yet, 'tis the massive artillery of the enemy and not the superiority of numbers that is gradually exterminating and so conquering them.

## WHEN WE GO BACK

"There is a plain old house in the hills of Oneida, overlooking the valley of the Mohawk, where truth and honor dwell in my youth. When I go back, as I am about to go, to spend my declining years, I mean to go with the feeling that I can say I have not failed to speak and act in accordance with the lessons that I learned there from the God of my fathers."

So spoke Elihu Root at the New York Constitutional Convention in what the newspapers call one of the most remarkable speeches of his career—a speech in which he demanded reforms to eliminate the bosses and patronage.

When I read this I could not help wondering how many of us, when we come to the time when we are ready to leave active life, will be able to say that we have always spoken in accordance with the lessons we learned in our youth.

Shall we find that we have kept ourselves clean, that we have fought on the square, that we have told the truth and acted honestly, and that always we have given our best to our job? At that time it will matter little how much money we have or how much fame has come to us. What will matter will be our own belief in our integrity and usefulness as evidenced by the love our fellows give us.

Most of us, we hope, are far from the end. We have our lives to live. May they be clean and useful, and may they count for much in making the world a better place in which to live.—Francis Seaco, published by Seamans & Cobb, Boston.

This sort of weather puts the completion of the traction line somewhat nearer. As to the tow-path, that's another matter.

## AND HE'S GOT TO PAY FOR HIMSELF SOME WAY

## AN EVIDENCE OF QUALITY

When we heard of Senator G. Frank Lauman's death, Saturday, the question came to us: Is his like disappearing from the race of men?

There was something about this man, that was uncommon and as attractive as it was uncommon. Tollgate keeper, cob picker in a distillery, clerk, soldier, merchant, legislator, farmer, steadily working his way through rude condition, there was nothing that cast taint upon his innate gentleness and gentility. He liked readily and likeableness just radiated from him. And it pleases us to say that his fine character was manifest in his home. In location and picturesque surroundings, we doubt if there be another in Scioto county to compare with it. In comforts and tastefulness in appointments it takes its place with any; and certainly none was better kept.

Somebody, with a keen sense of humor, put one over on us Monday. They sent us a clipping from the Noon Extra through the mail, just a clipping of two editorials. One of them referred to the Kaps administration taking a long time in getting that reservoir improvement started. The other spoke of a new window having been secured for the post office but that "it had taken a long time to get it." Do you see the point? One rather answered the other on that "time question." We admit the ears and throw up our hands.

Will history repeat itself? Last campaign "everybody down here was for Tod". Whereupon one "Young Doc" Sellards took up the play for Frank B. Willis and swept the platter clean. Harry Daugherty, candidate for United States senator was peragrinating about the Peerless, Monday, and everywhere he went he was greeted with the glad tidings—"Everybody down here for you." Will another "Young Doc" arise to nullify these gay claims? We opine not, not at least if he pauses to gaze on the remains of "Young Doc", the sad remains of "Young Doc's" fair expectations, scattered all the way from here to Columbus.

There are queer crimps in human nature. For instance, see the case of the Philadelphia choir boy, who stole \$10.00 in church paraphernalia in order that he might have a church of his own to preach his own sermons.

The German and Austrian emperors take turns about being sick, but both have a plaguing way to their enemies of getting well all too soon.

We may say there is no immediate prospect that the Allies will foreclose on the loan they made to Serbia.

## A RARE JUDGMENT

Ex-Prosecuting Attorney John A. Cline, of Cleveland, who is making a noise like he intended to contest for the Republican nomination for governor, has this cruel and unusual thing to say of our good young governor's administration: It is the greatest do-nothing and the smallest do-anything administration that ever afflicted the state. Then as if that were not enough, he proceeds to the utterance, that if gastronomic feats—evidently some suggestion of chicken gizzards there—and being a post prandial good fellow were qualifications for governor, Frank B. Willis would be the most dazzling success ever instead of the gloomiest failure.

It is, oh, so unseemly for the brethren to wrangle and contend after this fashion, but it is justified because of its truth it brings out and the retribution it will cause to come about. Frank B. Willis conducted the most improper campaign ever carried on by an Ohio gubernatorial candidate. There was looseness and abandon in his utterances positively amazing. Now he is to be destroyed by the very spirit of intemperance upon which he builded a success. Today he is more often the object of scoffs and jeers in his own party ranks than he is among Democrats. The truth of it is all Democrats have to do is to keep mum and grin in solid expectation of what is sure to happen to our good young Governor.

The automobile dealers say this is going to be their greatest year in Portsmouth and reading the sales they are making we haven't the disposition to dispute them.

It isn't fair to blame the Wilson administration because the mills have more work than they can turn out, but we guess he can stand it.

Nothing so joyous as a day in January, provided it be of the real Peerless brand.

If Mrs. Emmeline Pankhurst looks half as dangerous as do her newspaper photographs, there need be no surprise that every government gives her grudging welcome.

May be if gasoline keeps going up and autos going down they will eventually meet somewhere near the middle of the road.

Now it is the auto tire fellows that are adding to the cost of high living.

Money talks, but that is not the worst of it, it stops talk.

The more we get down to the hard pan fact that a newspaper is a business proposition the better newspapers there are.

That puttering patriot from Putnam, "Put" Sandles says if he hears any Democratic voices calling him to the Democratic candidacy for governor he is the lad to respond. Aye, aye, Put, you are sure a boy, but don't mistake any echoes for voices.

With the jocund breezes sauntering up from the south and the glowing sunbeams glimmering on the dimpling waves of the Ohio, indeed, we pity those Californians with floods, frosts and snows sweeps madly down from mountain and over plain and valley.

Like father like son. Nate used to smash the party machine every trip, his son on the first trip out on the fire truck stoved up a jitney.

Someone wants to know if building six miles of paved roads on the West Side means none this year for the East Side. It does not. The road between Sciotoville will be laid at all hazards this year.

## NEW-YORK-DAY-BY-DAY.

O-O-M'INTYRE.

New York, Jan. 25.—"Dynamite Johnny" O'Brien, filibuster and daredevil hero of a hundred hairbreadth escapes, is at last in a "darned ticklish position". He is facing the Big Escape in a downtown hotel with pneumonia. He is the man who started the Spanish-American war. He is the man who made Gen. Funston from a newspaper reporter into a human gutting gun.

He got his picturesque sobriquet from carrying sixty tons of explosive to Colon in '88 in the waist of a sea going yacht. He lacks but two winters of being eighty. He first met Fred Funston on a filibustering trip to Cinefuegos.

"Funston's a real man," says O'Brien. "He knows when to disobey orders. Any one who doesn't know that ain't worth shucks; he's good for nothing." His one desire is to see Funston before he meets the last great foe.

Fine skating finds New York in the grip of a skating craze such as it hasn't yielded to for years. The indoor rinks and private skating places are packed to capacity. The "reckless skater"

has made his appearance and threatens life and limb. Four skaters were taken from Central Park the first day seriously injured.

The police report that the beginners are not content to keep their feet and skate but must immediately strike into waltzes and double eights. All such make it more perilous for the rest.

The first moonlight skating party was given in Central Park by Nora Bayes, who has developed into a skating star. After the party broke up they repaired to the Hotel Majestic across the street from the lake where a new checking room for skaters has been opened.

The New York Central has announced that it will put mufflers on its locomotives, so that instead of going "choo-choo-chug" their gentle puffing will sound like the sighing of the wind among the barley. And the L road in Gotham spurred to emulation, has decided to make its flat wheels sound like cathedral chimes across the meadows at eventide.

If New Yorkers live long enough they will be happy yet. All that is needed now is for the subway guards to quit slamming the doors, hat room boys to quit snatching your hat like it belonged to them and department store clerks to treat you like you were part human beings.

"Real marriage is a mutual dedication of men and women for evolution of character and soul and the dignity of nobility of parenthood. Some animals have a nobler conception of marriage than some human beings."

Such is the statement of Rev. William Guthrie, preacher, playwright pastor of St. Mark's on the Bowverie. He says the race's highly edifying moral code includes absolute monogamy and not the technical. Man's does not.

Frank O'Brien tells of an American business man who was troubled with galloping despondency which developed suicidal mania. He went to his home on Riverside Drive one evening and took poison, but all he got was a headache.

Then he locked his bedroom door and turned on the gas, but the quarter meter stopped before he obtained the desired result. Next he tried to buy ammunition for a revolver but found that Europe had bought the entire supply.

Not having any pull with the New York city government, he could not get a permission to jump off a bridge so as a last resort he sighed and said: "There is nothing to it. Much as I hate traveling, I must go into Mexico with a safe-conduct from Carranza."

The play with "a punch" is now passe. A new production on Broadway announces in screaming headlines that it is "A big human play with a show." There seems to have been too many of those "remarkable human document things" in New York.

Wind From The South

I smiled at Mister Blizzard When he wandered down our way— I know he wasn't welcome, And he wouldn't want to stay; And sure enough, Miss South Wind Caught him napping after while, And she kissed him with her roses Till he vanished with a smile.

Bulletin said warmer, And we knew that all the time, When the wind had started blowing From the morning-glory clime; For the mocking-birds are in it, And the jasmine and the rose— And there is no chance for blizzards When the sweet old south wind blows.

We'll send his trunk tomorrow, And his suit case on the train, That will follow down the valley, Where the sweet south blows her rain, And he'll smell the violets growing, And he'll know the rose is there, Before the old conductor Gets 'round to take his fare.

## Wonder If The Cow Vouches For This

Walter Bowen landed the largest fish of the season in a most peculiar manner. Mr. Bowen conceived the idea of attaching a line baited with a small fish to a cow's tail who daily waded out in the river to eat seaweed. Presently the cow felt a huge jerk at her southern extremity and she scrambled about, finally coming to shore dragging a huge codfish weighing 23 1/4 pounds. Price of sea-fishing cobs has jumped.—Clearwater (Fla.) Sun.

## Sounds of the Times

There are moments when the life of a country editor hardly seems worth living; fleeting moments, perhaps, but intense moments, nevertheless. The editor of the Sunfield Sentinel experienced one of these moments recently, according to the following, which is taken from his valuable paper:

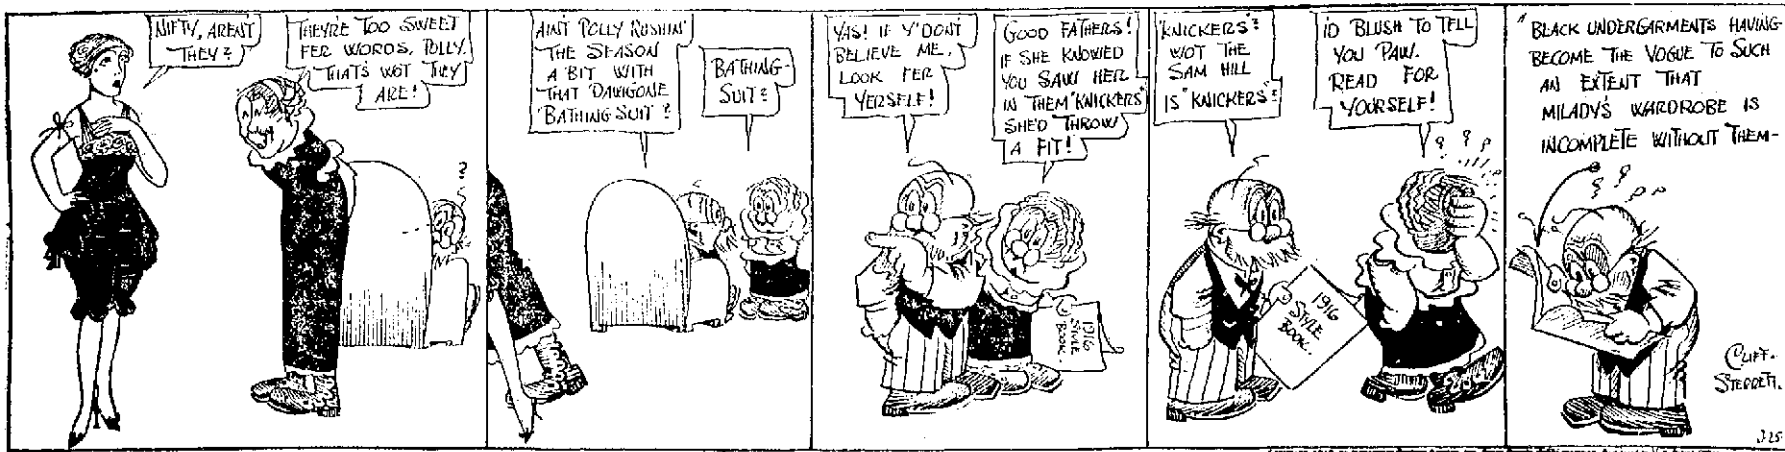

"When a girl with a face like a cream puff marries a youth who never earned a dime outside a shooting gallery, the editor has to point the bride a radiant vision of blushing beauty and the groom as a rising young business man, or else dignify an expectant circle of frequent subscribers. If the editor fails to spread a two-column obituary over a prominent citizen who never paid a grocery bill outside of the justice court, he is liable to be waited upon by some two-fisted relative of the deceased with an infuriated air and a punch in either hand."—Exchange.

## U. S. OBJECTS TO THE NEW BRITISH ACT

Washington, Jan. 25.—Vigorous opposition to Great Britain's "Trading with the Enemy" act, is lodged in the United States by the British foreign office. The communication had been prepared for transmission following the receipt of the text of the act from Ambassador Page.

Although the representations do not take the form of a protest, for the reason that the act is limited in its immediate operation to British subjects, strenuous objection is directed against any attempt to apply the legislation to American trade. The United States contends that the proposed interference with trade is illegal and that it would be impossible to aim successfully a blow at Germany without doing grave injury to American commerce.

## GREAT PRIVATE FORTUNES ARE TO BE TAXED

Washington, D. C., Jan. 25.—Legislation to increase Governmental revenues to meet the expenses of national defense is expected to take definite shape now that all doubt as to the constitutionality of the income tax has been removed by the supreme court's decision.

On all sides today the leaders expressed the belief that the decision had paved the way for increasing the tax rate on great private fortunes to aid in paying for national defense.

Bills to tax incomes of more than \$1,000,000 as high as fifty per cent are now before congress. The Democrats naturally are gratified over the decision. In the opinion of administration leaders the decision has unfettered a fruitful source of revenue and rendered easier the revenue problem confronting the government.

In the Invincibles and Play House teams were victors over the Crystal Palace and Kandy Kids in the games rolled at the Play House and Crystal Palace alleys, last night. The scores were away off color last night, due to the fact that quite a number of regulars were absent from the line-ups. George Wilhelm, of the Invincibles, and Lemaster of the Play House shot into the 200 circle. Aldridge and Malivao did good work respectively for the Crystal Palace and Kandy Kids. The highest total was 888, which goes to show the teams were off form. The scores:

There were fifty-one applicants for the position of coach of the University of California football squad. And many one of them landed the job.

Out of sixteen starts last season, Pitcher Baumgartner of the Phillies didn't win a single game. And yet many baseball sharps believe he is a coming star.

As Attell, former holder of the featherweight championship, is out to land a referee's license in New York.

As Mobile is to retain its franchise in the Southern league no changes in the lineup of that organization will take place for the present at least.

Harvard's baseball schedule calls for 28 games. A trip south will be taken to meet Virginia, Annapolis, Johns Hopkins and other teams in that section.

A total attendance of 308,174 was registered at the big and small wolf courses in Jackson Park, Chicago, the past year.

Despite his two knockouts at the hands of Frank Moran, Jim Coffey does not intend to retire from the ring. He figures he is still able to obtain bouts in New York.

## WILL MATTY WIN 20?

Christy Mathewson says he will win 20 games for New York the coming season. Well if he does it is a cinch that the Giants will not brouse around in the innermost recesses of the dark and dreary cellar this year. Not much.

## INDOOR LEAGUE

The Pastime club of the West End has joined the Automatic Baseball league. They will play the Irving Drexel club Thursday evening at the Big League. The following players compose the Pastime club: Thompson, Grace, Thomas, Lookabaugh and Evans. The Norfolk and Western team plays the Excelsior team this evening.

## Jitney Baseball

The Greensboro team of the North Carolina league will try Jitney baseball next season. A season ticket good for sixty games will be sold for \$3.00.

## Packey To Fight Again

## NEW SWIMMING RECORD

New York, Jan. 25.—The Columbia swimming team bettered the intercollegiate record for the 800 yard relay event by a fifth of a second in the meet with Cornell last night, winning in one minute, 44 4-5 seconds. The previous record was made by Yale last year. Columbia won the meet 42 to 41.

## RAISED \$75,000 IN TEN MINUTES

Chicago, Jan. 25.—Charles Weeghman, new owner of the Chicago National league baseball club, was asked for the name of the banker who is one of his backers. "I can't tell his name," said Weeghman, "but here is the kind of a sportsman he was. Last Thursday at the last moment for the transfer of the Taft holdings drew near, I found myself shy \$75,000 of the \$500,000 purchase price. The checks of two men who had taken

stock had failed to arrive. So I called up the banker. "I've got to have \$75,000 in the next ten minutes," I told him. In eight minutes he appeared in my office with \$75,000 in bills. The next morning the checks arrived by mail."

## MAMAUX WILL DRAW BIG SALARY

It is said that Al Mamaux, star pitcher of the Pittsburgh Pirates, will draw down a salary of \$30,000 per year this season. And just three years ago Mamaux was an Ohio State star and hurried for the munificent salary of \$500 per month. Surely the O. S. is a stepping stone to better things.

## Club Five Won

By reversing the score, the Club-Cerman Evangelical basketball game of last Thursday was repeated at the Club gym Monday evening when the Club team won from the "Dutchmen" by a score of 25 to 17. The church team won from the Club by the same score last week. Monday night's game was the first victory for the Club this season and the first defeat for the "Dutchmen." The two teams will play the "rub" next Monday evening in the Club gym.

Woods starred for the Club five. He was in every play and the victory can be attributed to his good floor work. Bellamy and Davis played well. Henge for the Club got away from his man in the last half and made three goals. Gims and Uhl did the heavy work for the G. E. five. Above came across with an extra long shot that was unusual. Uhl also made a difficult shot, while Winters of the Club made two field goals that were out of the ordinary. The first half ended with the score 19 to 4 in favor of the Club. The "Dutchmen" took on new life in the second which ended with the Club making 12 points to the church team's 13. The line-ups:

G. E. Woods, Gims, Uhl, Winters, Henge, Bellamy, Schusky, Kell, L.G. Davis, Field Goals—Woods 8; Henge 3; Winters 2; Gims 4; Uhl 1; Uhl 1; Paul Goals—Gims 4; Uhl 1; Winters 1; Woods 1; Davis 1. Referee—Hollingsworth. Time of Halves—20 minutes.

## Big Trades Brewing

Some rattling big trades are brewing in the National league. It is said that Cincinnati has four men, Pittsburgh 3, New York 2, Boston 4 and St. Louis 3 men on the market. Unless some trades are effected quite a flock of diamond exponents, who for several years have been scanning big league rumors cards and crowds, will be shunted to the minors.

## Cheaper Baseball

Boston, Jan. 25.—President Joseph J. Lannin, of the Boston Red Sox world's champions, announced that next season he would make a big reduction in the prices for the American League ball games at Fenway Park. He intends to reduce the price of all box seats to \$1.00, thus reducing the 50-cent seats to eliminate the dollar section that heretofore has included the first ten rows of the pavilion. All the seats in the grandstand hereafter will be sold for 75 cents each. President Lannin also plans to increase the section of 25-cent seats, of which there will be more than 10,000, and to reduce the price of the 50-cent seats to about 650 in number.

## Feds Come High

There is nothing cheap about the three Fed players the Giants purchased the other day. It is reported that McGraw paid \$35,000 for the release of Benny Kauff, \$15,000 for Bill Burdett, the catcher, and \$10,000 for Fred Anderson, the Buffalo spit-bull artist. It is said that President Hempstead of the Giants is willing to spend \$40,000 more for the kind of material which will convert the Giants into pennant contenders. The Giants have hung up a record for purchasing high-priced players in a single deal. When Comiskey put up \$20,000 for Eddie Collins last year he set a new mark, but Hempstead has excelled it with his sixty-thousand dollar plunge.

## W. & J. Schedule

Washington, Jan. 25.—The Washington and Jefferson football team will meet Yale next season according to the schedule given out today. Eleven games are to be played, four away from home, as follows: Sept. 23, Belham; Sept. 30, Geneva; Oct. 7, West Virginia Wesleyan; Oct. 14, Marietta; Oct. 21, Westminster; Oct. 28, Yale at New Haven; Nov. 4, Washington; Nov. 11, Pittsburgh at Pittsburgh; Nov. 18, Washington and Lee, at Richmond, Va.; Nov. 25, Chattanooga; Nov. 30, Rutgers at New York.

## TO BANQUET WINNERS

The Young Men's Bible class of the First Baptist church simply ran away from the Men's Bible class Sunday. The contest between these two classes is at fever heat. The Young Men had 51 present while the attendance in the Married Men's class was 43. The Young Men are 11 points ahead. The contest comes to a close the first Sunday in March. Plans are being made to have the losers entertain the winners with a banquet.

Go To Chicago. A. W. Goodman, who until recently conducted a clothing and gent's furnishing store on Gallia street, and who for years ran the Globe store on Second street, will leave the last of the week for Chicago, where he plans to engage in some business. His sister, Miss Tilda Goodman, and his son, William, left Monday for their future home in Chicago.

They've made lots of money in such short time, and it looks very funny that they raised to a dime. Gee, the people just flock to the door, and it looks as if they're a thousand and more. They're getting rich quick, for I can see the nickels and dimes as plain as can be.

I buy my ticket, the money is tight. You can tell they're turning one big night. They're doing great business for these hard times, and I wonder what they do with all those dimes. I guess they put them all in the bank and among the first depositors rank.

THE FACTS: You don't see managers in motor cars, or smoking real Havana cigars. They don't own a swell home on the hill, and most of them owe for their grocery bill. They're not getting rich as you may think. In fact the game is on the blink, for films that used to cost eighteen a week are now out of date and pour, so to speak. So to get what the patrons desire, the cost has gone to fifty and higher. And then if you get a theater or two, your film bill is doubled on you.

Of course there's your rent, your heat, your time, included in things to pay with that little dime. The operator, too, must get his dough, because if it wasn't for him there'd be no show. The drummer, the usher, piano player as well, and a thousand things more that we could tell, and then no matter if business is lax, we still have to pay that old war tax. We don't ever show a thousand or more, cause there's only three hundred seats nailed to the floor. We don't make much, in fact it's little. If you don't think so, ask O. A. Smittle, of the Temple theater.

Taken To Pen. Sheriff Smith took Allen Copeland, the New Boston man indicted for failure to provide by the grand jury, to the Ohio penitentiary Sunday morning to begin his sentence in that institution. He pleaded guilty to the indictment.

## YES, THIS IS THE LIFE

Speaking of our recent congressional career, the Georgetown News-Democrat, under the heading of "This is The Life After All" had this to say:

"There is no place for attack in the statement we note issued by Editor Harry Taylor, of The Portsmouth Times, that he will not seek the Democratic nomination for congress in the Sixth Congressional District. Admitting that the 'political bee' hummed continually about his snout, when friends insisted that he could not only get this nomination, but would be elected, and would make the district a splendid representative in the lower national house, he at last ran across a friend, who incidentally dropped the remark, 'What do you want with it?' These six little words germinated and drew him back among the clinking of the linotypes, the smell of the news, the inspiration of his newspaper work and to a realization that being a citizen, free to speak to and for the people in honesty and fairness, was an honor far more to be sought than could come from political preferment. The very best of reasoning. And we repeat that we see no place to attack, wherein we could change him from the conclusion he has reached. Again, when we learned that, we who are honestly in this newspaper building game, have a co-worker who would not swap for political honors, we arranged our pencil, shears and paste pot on one side of our typewriter, our note book upon the other, took a look over the shop to see that all was well, and kept humming over to ourselves, 'This is The Life. This is The Life.'"

## THE WONDER OF IT

We are reading today alternate tales of how the Montenegrins have been annihilated by the Austrians and how the gallant band fighting for her rugged land refuses to be annihilated and means to fight down to the last man.

It is strange there should be so much ado about so little. Montenegro is one of the most inhospitable climes that man ever picked out for abode. The country is bleak mountain peak and only less bleak mountain side. It has no manufacturing industries and its agricultural production is so parsimonious that its people know nothing of luxury and little of comfort and plenty. All told its population numbered at the beginning of the war about 300,000 and its total fighting strength is said to have reached as much as 60,000 men. It was only the next to impregnable fastness of their land that has enabled them to hold out against the hundreds of thousands Austria has hurled against them, and the indomitable courage and steadfastness of the race. Yet, 'tis the massive artillery of the enemy and not the superiority of numbers that is gradually exterminating and so conquering them.

## WHEN WE GO BACK

"There is a plain old house in the hills of Onida, overlooking the valley of the Mohawk, where truth and honor dwell in my youth. When I go back, as I am about to go, to spend my declining years, I mean to go with the feeling that I can say I have not failed to speak and act in accordance with the lessons that I learned there from the God of my fathers."

So spoke Elihu Root at the New York Constitutional Convention in what the newspapers call one of the most remarkable speeches of his career—a speech in which he demanded reforms to eliminate the bosses and patronage.

When I read this I could not help wondering how many of us, when we come to the time when we are ready to leave active life, will be able to say that we have always spoken in accordance with the lessons we learned in our youth.

Shall we find that we have kept ourselves clean, that we have fought on the square, that we have told the truth and acted honestly, and that always we have given our best to our job? At that time it will matter little how much money we have or how much fame has come to us. What will matter will be our own belief in our integrity and usefulness as evidenced by the love our fellows give us.

Most of us, we hope, are far from the end. We have our lives to live. May they be clean and useful, and may they count for much in making the world a better place in which to live.—From *Seas*, published by Seaman & Cobb, Boston.

This sort of weather puts the completion of the traction line somewhat nearer. As to the tow-path, that's another matter.

## AND HE'S GOT TO PAY FOR HIMSELF SOME WAY

## AN EVIDENCE OF QUALITY

When we heard of Senator G. Frank Lauman's death, Saturday, the question came to us: Is his like disappearing from the race of men?

There was something about this man, that was uncommon and as attractive as it was uncommon. Tollgate keeper, cob picker in a distillery, clerk, soldier, merchant, legislator, farmer, steadily working his way through rude conditions; there was nothing that cast taint upon his innate gentleness and gentility. He liked readily and likeableness just radiated from him. And it pleases us to say that his fine character was manifest in his home. In location and picturesque surroundings, we doubt if there be another in Scioto county to compare with it. In comforts and tastefulness in appointments it takes its place with any; and certainly none was better kept.

Somebody, with a keen sense of humor, put one over on us Monday. They sent us a clipping from the Noon Extra through the mail, just a clipping of two editorials. One of them referred to the Kaps administration taking a long time in getting that reservoir improvement started. The other spoke of a new window having been secured for the post office but that "it had taken a long time to get it." Do you see the point? One rather answered the other on that "time question." We admit the corn and throw up our hands.

Will history repeat itself? Last campaign "everybody down here was for Tod". Whereupon one "Young Doe" Sellards took up the play for Frank B. Willis and swept the platter clean. Harry Daugherty, candidate for United States senator was perigrinating about the Peerless, Monday, and everywhere he went he was greeted with the glad tidings—"Everybody down here for you." Will another "Young Doe" arise to nullify these gay claims? We opine not, not at least if he pauses to gaze on the remains of "Young Doe", the sad remains of "Young Doe's" fair expectations, scattered all the way from here to Columbus.

There are queer crimps in human nature. For instance, see the case of the Philadelphia choir boy, who stole \$10,000 in church paraphernalia in order that he might have a church of his own to preach his own sermons.

The German and Austrian emperors take turns about being sick, but both have a plaguing way to their enemies of getting well all too soon.

We may say there is no immediate prospect that the Allies will foreclose on the loan they made to Serbia.

## A RARE JUDGMENT

Ex-Prosecuting Attorney John A. Cline, of Cleveland, who is making a noise like he intended to contest for the Republican nomination for governor, has this cruel and unusual thing to say of our good young governor's administration: It is the greatest do-nothing and the smallest do-nothing administration that ever afflicted the state. Then as if that were not enough, he proceeds to the utterance, that if gastronomic feasts—evidently some suggestion of chicken gizzards there—and being a post prandial good fellow were qualifications for governor, Frank B. Willis would be the most dazzling success ever instead of the gloomiest failure.

It is, oh, so unseemly for the brethren to wrangle and contend after this fashion, but it is justified because of its truth it brings out and the retribution it will cause to come about. Frank B. Willis conducted the most improper campaign ever carried on by an Ohio gubernatorial candidate. There was looseness and abandon in his utterances positively amazing. Now he is to be destroyed by the very spirit of intemperance upon which he builded a success. Today he is more often the object of scoffs and jeers in his own party ranks than he is among Democrats. The truth of it is all Democrats have to do is to keep mum and grin in solid expectation of what is sure to happen to our good young Governor.

The automobile dealers say this is going to be their greatest year in Portsmouth and reading the sales they are making we haven't the disposition to dispute them.

It isn't fair to blame the Wilson administration because the mills have more work than they can turn out, but we guess he can stand it.

Nothing so joyous as a day in January, provided it be of the real Peerless brand.

If Mrs. Emmeline Pankhurst looks half as dangerous as do her newspaper photographs, there need be no surprise that every government gives her grudging welcome.

May be if gasoline keeps going up and autos going down they will eventually meet somewhere near the middle of the road.

Now it is the auto tire fellows that are adding to the cost of high living.

Money talks, but that is not the worst of it, it stops talk.

The more we get down to the hard pan fact that a newspaper is a business proposition the better newspapers there are.

That puttering patriot from Putnam, "Put" Sandles says if he hears any Democratic voices calling him to the Democratic candidacy for governor he is the lad to respond. Aye, aye, Put, you are sure a boy, but don't mistake any echoes for voices.

NEW-YORK-DAY-BY-DAY.  
O-O-MEINTYRE.

New York, Jan. 25.—"Dynamite Johnny" O'Brien, filibuster and daredevil hero of a hundred hairbreadth escapes, is at last in a "darned ticklish position". He is facing the Big Escape in a downtown hotel with pneumonia. He is the man who started the Spanish-American war. He is the man who made Gen. Funston from a newspaper reporter into a human gattling gun.

He got his picturesque sobriquet from carrying sixty tons of explosive to Colon in '88 in the waist of a sea going yacht. He lacks but two winters of being eighty. He first met Fred Funston on a filibustering trip to Cinefuegos.

"Funston's a real man", says O'Brien. "He knows when to disobey orders. Any one who doesn't know that ain't worth shucks; he's good for nothing." His one desire is to see Funston before he meets the last great foe.

Fine skating finds New York in the grip of a skating craze such as it hasn't yielded to for years. The indoor rinks and private skating places are packed to capacity. The "reckless skater"

has made his appearance and threatens life and limb. Four skaters were taken from Central Park the first day seriously injured.

The police report that the beginners are not content to keep their feet and skate but must immediately strike into waltzes and double eights. All such make it more perilous for the rest.

The first moonlight skating party was given in Central Park by Nora Bayes, who has developed into a skating star. After the party broke up they repaired to the Hotel Majestic across the street from the lake where a new checking room for skaters has been opened.

The New York Central has announced that it will put mufflers on its locomotives, so that instead of going "choo-choo-chug" their gentle puffing will sound like the sighing of the wind among the barley. And the L road in Gotham spurred to emulation, has decided to make its flat wheels sound like cathedral chimes across the meadows at eventide.

If New Yorkers live long enough they will be happy yet. All that is needed now is for the subway guards to quit slamming the doors, hat room boys to quit snatching your hat like it belonged to them and department store clerks to treat you like you were part human beings.

"Real marriage is a mutual dedication of men and women for evolution of character and soul and the dignity of nobility of parenthood. Some animals have a nobler conception of marriage than some human beings." Such is the statement of Rev. William Guthrie, preacher, playwright pastor of St. Mark's on the Bowery. He says the ravens' highly edifying moral code includes absolute monogamy and not the technical. Man's does not.

Frank O'Brien tells of an American business man who was troubled with galloping despondency which developed suicidal mania. He went to his home on Riverside Drive one evening and took poison, but all he got was a headache.

Then he looked his bedroom door and turned on the gas, but the quarter meter stopped before he obtained the desired result. Next he tried to buy ammunition for a revolver but found that Europe had bought the entire supply.

Not having any pull with the New York city government, he could not get a permission to jump off a bridge so as a last resort he sighed and said: "There is nothing to it. Much as I hate traveling, I must go into Mexico with a safe-conduct from Curranza."

The play with "a punch" is now passe. A new production on Broadway announces in screaming headlines that it is "A big human play with a slam." There seems to have been too many of those "remarkable human document things" in New York.

## Wind From The South

I smiled at Mister Blizzard When he wandered down our way— I knew he wasn't welcome, And he wouldn't want to stay; And sure enough, Miss South Wind Caught him napping after while, And she kissed him with her roses 'Till he vanished with a smile.

We'll send his trunk tomorrow, And his suit case on the train, That will follow down the valley Where the sweet south blows her rain, And he'll smell the violets growing, And he'll know the roses are there, Before the old conductor Gets 'round to take his fare.

Walter Bowen landed the largest fish of the season in a most peculiar manner. Mr. Bowen conceived the idea of attaching a line baited with a small fish to a cow's tail who daily waded out in the river to eat seaweed. Presently the cow felt a huge jerk at her southern extremity and she scurried about, finally coming to shore dragging a huge cat-fish weighing 23 1/4 pounds. Price of sea fooding cows has jumped.—Clearwater (Fla.) Sun.

## Sounds of the Times

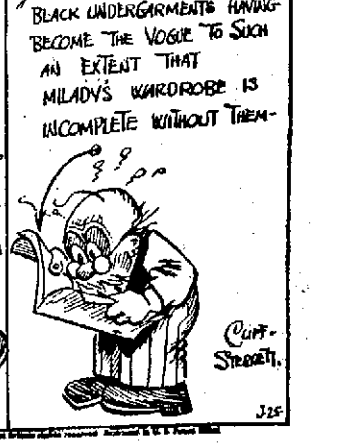

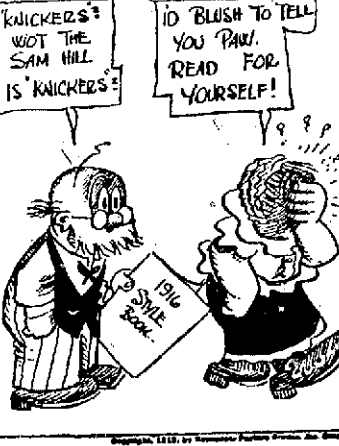

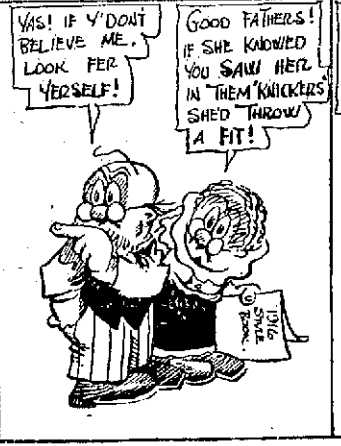

There are moments when the life of a country editor hardly seems worth living; fleeting moments, perhaps, but intense moments, nevertheless. The editor of the Sunford Sentinel experienced one of those moments recently, according to the following, which is taken from his valuable paper:

"When a girl with a face like a cream puff marries a youth who never earned a dime outside a shooting gallery, the editor has to paint the bride a radiant vision of blushing beauty and the groom as a 'rising young business man,' or else disappoint an expectant circle of delinquent subscribers. If the editor fails to spread a two-column obituary over a prominent citizen who never paid a grocery bill outside of the justice court, he is liable to be waited upon by some two-fisted relative of the deceased with an infuriated air and a punch in either hand."—Exchange.

## POLLY AND HER PALS

## HE'LL GET THE "NICK" IN KNICKERS, ANYWAY

# LOCAL BOY EYE WITNESS TO BIG RIOT IN EL PASO, TEXAS

Walter Darby, an old Portsmouth boy, who just returned home after a number of years spent in the United States regular army, was an eye witness to the riot in El Paso, Texas, that followed the massacre of seventeen Americans by Mexican bandits recently.

Darby said every Mexican caught on the street was driven to cover that night and a number of them were roughly handled. Darby says that most of the reports of clashes between the United States soldiers and Mexicans were exaggerated. There are now 8,000 regulars doing border duty in that section and they are taking up something new in warfare every day, improving their system of trench digging, and making practical tryouts of other things learned from the big European war. He said that Uncle Sam's boys follow the events of that war with great interest and many of them feel that sooner or later we will become involved in it. They do not say much about it, but are willing and ready to step right in on a moment's notice.

Darby says that the American army is not very big, but what there is of it is right up to snuff and the soldiers compare with the best of them to be found anywhere.

Darby expressed the belief that armed intervention in Mexico was inevitable.

The boys in the army, said Darby, have no earthly use for Villa or Carranza, disliking one just as much as the other. Previous to the recent massacre of the seventeen Americans, the soldiers assumed a rather indifferent attitude to the battle-torn country, but have since been aroused to a high pitch and are eager to avenge the recent outrage.

Darby was a member of Company F of the Sixth United States Infantry. This is the old fighting Sixth which was formerly stationed at Fort Thomas, Ky., and which did such gallant service in Cuba during the Spanish-American war.

## The Movies

### "The Spoilers" Columbia Today

"The Spoilers," a nine reel picture, reproducing Rex Beach's famous story of early Alaska is undoubtedly one of the world's greatest pictures in motion. Ask anyone who has seen it and they will tell you the same thing.

By the time the Selig Motion Picture company had arranged to reproduce "The Spoilers," some features of the original environment had been eliminated, and it became necessary to restore them to preserve the full value of Rex Beach's famous story.

Main street in the city of Nome had been wrecked by a tidal wave, and the remaining part of the city had been destroyed by fire shortly afterward.

With the aid of old photographs several squares of Main street was rebuilt.

It may be recalled in the book that the miners, to rebuke the lawless invaders, who had under the false shade of legal advice, taken their property in revenge, destroying the old mining camp of Midas. This camp was rebuilt in vivid style, as an old mining camp was purchased, only to be blown off the map by high explosives, reproducing most vividly the destruction as spoken of in the story.

Over five months were required in making "The Spoilers," necessitating the carrying of a large company to Alaska to secure the results of authentic location. As the book calls for a large number of scenes in the ruin, you will see the most realistic rain storms in ever seen in motion pictures.

This grand picture was thoroughly enjoyed by hundreds last winter at an admission of 25 cents per seat. Today this price is reduced to 15 cents for adults and 10 cents for children.

The first show will begin promptly at 1:30 and will be run continuously throughout the supper hour until about 10:30.

## Mr. Daugherty Well Pleased With Portsmouth Reception

Hon. Harry M. Daugherty, Republican candidate for U. S. Senator from Ohio, left early Tuesday morning for Columbus after having spent the time from Monday noon in Portsmouth in the interests of his candidacy.

Many local citizens met the Senatorial candidate at the informal reception in the Washington Hotel lobby Monday evening. After the reception was over, Mr. Daugherty stated to the Times that he was more than pleased with his reception in Portsmouth, and that from the assurances of support he had received while here, he was satisfied that he would make a fine showing in Scioto county at the primary election.

Seventeen local Republicans took dinner at the Washington Hotel Monday evening along with their distinguished guest. In the number were Phil S. Clark, Charles E. Hard, George M. Osborn, Frank V. Knauer, Dr. P. W. Young, George L. Davis, Henry Becker, F. W. Meyers, E. W. Smith, Gilbert Dodds, Anselm Skelton, Roy McKimney, John W. Hall, Sampson D. Eckhart, M. J. Caldwell, Roy Coburn and Samuel Morelow.

After dinner, Mr. Daugherty spent a pleasant hour or two meeting voters. Prominent among the men who called to see him were Levi D. York, Ben H. Dillon, Roger Selby, Ralph Calvert, W. H. Williams and others. Practically every city and county official was represented in the crowd at the hotel.

After an hour or so of handshaking, Mr. Daugherty was called upon for a speech. He was introduced by Judge Osborn, who designated him as a Southern Ohio Republican, and a loyal one.

Mr. Daugherty said in part: "I thank you people very much for calling on me this evening. I didn't expect to make a speech. I came down here just to meet the folks. A candidate for office owes it to the people to show himself among them. If you are to be my constituents, I want to see you and I suppose you want to see me."

"It is the duty of every candidate who is willing to submit his candidacy and causes to the people to go around and see them. I didn't see all whom I would have liked to have seen, owing to the lack of time, and I appreciate the fact that some of you have come down here to see me."

"If I were to consult my own wishes, I probably would not be a candidate for U. S. Senator. But a man doesn't always consult his own wishes and ambitions. The office of senator is a high office, and is just as high if the candidate didn't have to go over the state in the interest of his candidacy. During the coming ten years, the office of U. S. Senator will be the most important office in the world, outside of probably the president of the United States."

"After the European war is over, industrial conditions in this country will have to be improved. I stand for a protective tariff, adjusted on the same safe and sane basis that was advocated by President McKinley. The tariff is a partisan question."

"It is a question on which the Democratic party is always wrong, and the Republican party always right. If the Democratic party was right on every other question and wrong on the tariff, you will have hard times in this country. If the Republican party was right on the tariff and wrong on every other question, if such a thing would be conceivable, you would have good times in this country."

"I favor the adjustment of the tariff on the same old lines under which the government in this country was prosperous. The Republican party insures safe and sound industrial conditions."

"There are other candidates for the office of Senator, all good Republicans, entitled to your admiration and respect. I can say to you that they are entitled to your support, for I have been supporting them loyally almost all of my life."

"I have an ambition to go to the United States Senate from Ohio. I will be 56 years old tomorrow, and it will always be a pleasure for me to refer back to the day before my 56th birthday."

anniversary on the opening of my Senatorial campaign in your city. If nominated and elected, as I confidently expect to be, I pledge myself to preserve the traditions of the party. If any of the other candidates are successful, I pledge to them my support. I am accustomed to discouragement.

"I want to thank you again for coming down to see me, and hope to see you again before the present campaign is over."

After his speech, Mr. Daugherty mingled for another hour or so with his local friends in the hotel lobby before he retired. He expressed himself numerous times as pleased with his local reception and seemed satisfied with conditions here insofar as they affected his candidacy.

From now on until February 3rd, Mr. Daugherty is booked for an address every day in some city in Ohio. On February 3rd, he delivers an address at the annual meeting of the rubber manufacturers in New York City.

## Interfered With A Train; Sent To Pen

It took a jury in common pleas court Monday afternoon less than twenty minutes to convict Luke Jones, colored, of the charge of interfering with the operation of a railroad train. It was claimed by the railroad company that he turned the angle cock of a freight car attached to a train while it was in motion.

Witnesses against Jones were members of the train crew and the railroad detectives who made the arrest. He was defended by Attorney Joseph Coates, while the prosecuting attorney represented the state.

## WANT MILLION STOGIES

While big war contracts are being handed out to various manufacturers of these United States, Rickey & Johnson, Second street cigar and stogie manufacturers, are just about to receive a contract (not for the war however) for 1,000,000 R. & J. stogies, their leader. A telegram was received Saturday from one of their traveling representatives in a southern state, who asked for quotations on 1,000,000 of these stogies, which are now sold in fourteen states, and which enjoy a splendid sale in Portsmouth. Messrs. Rickey & Johnson, should they land the contract, will be compelled to more than double their force. They are now working from twelve to fifteen persons at their plant and have ample accommodations for twice that number of people. The R. & J. big Havana stogie has achieved a remarkable sale, and more than 1000 are being consumed daily by Portsmouth smokers.

## Germany Reported "Repentant" Over Lusitania Case

Washington, D. C., Jan. 25.—Secretary Lansing had before him today another written proposal from Germany designed to bring about a settlement of the controversy over the sinking of the liner Lusitania. It was submitted through Ambassador Von Bernstorff. Although strict secrecy surrounded the negotiations, it was indicated today that the proposal might result in a satisfactory ending to the long standing negotiations on the subject.

It is understood that in the latest proposal Germany has agreed to eliminate from the text of the agreement any mention of the warning American lives and indemnity is offered by the German embassy the day the Lusitania sailed and has fact that such forms of reprisal have been discontinued as the result of admission of wrong-doing negotiations with the United States.

## WOMAN'S MIND IS AFFECTED

The police were called to take charge of Mrs. Mattie Biggs, colored, who was "cramming out" and otherwise acting strangely at the front entrance to Hempstead hospital Monday afternoon.

The woman had managed to escape the vigilance of relatives and slipped away from the home of her grandmother, Mrs. Martha Valentine of 1114 Gay street. They were busy searching for her in the neighborhood when word came that she was at the hospital. The family physician, Dr. S. B. McKerrihan, enlisted the aid of the police. When they reached the hospital the woman was sitting on the veranda. By the time the service wagon drove around the building and back to the front a nurse had escorted the woman inside. She would not move save when taken by the arm, did not utter a single word and gazed constantly straight ahead. She was taken back to the Valentine home. There, it was learned, she had been in ill health for several months and while absolutely harmless relatives had kept close watch on her for fear she might venture out upon the railroad tracks directly in front of the home and get killed. Dr. McKerrihan had much success in treating her and she was thought to be about entirely recovered and was preparing to rejoin her husband in Cleveland when the sudden spell came over her Monday.

## ALLEGED YEGGMEN TO BE TAKEN BACK TO WAVERLY

Details of the capture at Chillicothe of several men suspected of having blown a safe and robbed a general store at Beaver are given by the News-Advertiser of that city, as follows:

"Edward Collins, 23, Chicago, and A. B. Smith, 45, no home, were arrested by Patrolman Burns at 6:30 o'clock as suspects in connection with a safe-blowing at T. Schenck's store at Beaver, in Pike county, early Monday morning. Harry DeCamp, local man, was found with the two men and is being held for investigation."

"The local police department received word of the safe blowing at 4:55 o'clock this morning. About \$16 in nickels and pennies were taken from the safe. A D. T. & I. hand-car was stolen from a shed nearby, and on this, it is thought the yeggmens rode to Glen Jean and there boarded an N. & W. train. It is thought the men threw the hand-car into the Scioto river before taking the train. No trace of the hand-car could be found."

"After receiving word of the case, Captain Hamelback, of the local department, met the first N. & W. freight train passing through the city. This was at 5:05. The train was stopped and a search was made, without results."

"At 6:30, however, another train was stopped, and in a box car partially filled with coal, Patrolman Burns found Smith, Collins and DeCamp. DeCamp claims he boarded the train at Portsmouth and did not know that the other men were in the car. When Burns boarded the car the first named two began to push some articles away from them. These articles were found to be a bottle containing three ounces of nitro-glycerine, an explosive used by safe-blowers, a bottle containing fuses and caps and two sacks, one containing \$5.76 in pennies and the other \$9.70 in nickels. In the latter sack several rolls of nickels were found wrapped in bill heads bearing the name of the robbed store-keeper."

"Both men carried loaded revolvers. Collins told several conflicting stories, but Smith declined to talk. They were taken to the city prison. Sheriff B. F. Euler, of Pike county, and Marshal Ed Heibel, of Waverly, arrived at 8:55 o'clock to take charge of the prisoners. Collins and Smith were arraigned in police court in charge of carrying concealed weapons and bound over to the grand jury in the sum of \$1,000 each. Both pleaded guilty."

"Detective Harry James, of the Columbus police department, was notified of the arrests and came to this city at 12:30 to look at the prisoners. He thinks they are wanted at Somerset, Ky. They will be photographed before they are taken back to Waverly."
